

Cyber attacks are big business for cyber criminals.

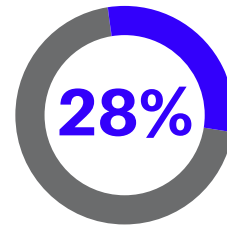

Are you protected?

Ransomware

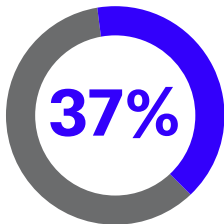

There were **seven times** more reported ransomware attacks in 2020 than in 2019.¹

Small businesses targets

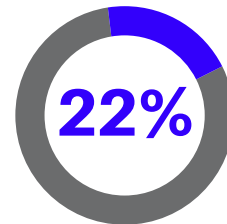

28% of data breaches involved small businesses.²

Weak passwords

37% of data breaches stole or used credentials.²

Phishing

22% of data breaches involved phishing.²

Stolen time and resources

The average number of days a business is interrupted from a ransomware attack is **16**.³

With Cyber Suite, you're covered for these cyber risks and more – so you can concentrate on running and growing your small business.
