

RE_IMAGINE YOUR FUTURE
Frontend (Angular Dev)

Munich Re Automation Solutions is looking for passionate & dedicated people like you.

Part of Munich Re, one of the largest reinsurers in the world, Munich Re Automation Solutions provides new business processing and underwriting automation solutions to the life insurance industry. Headquartered in Dublin, the Automation Solutions division also has offices in Sydney, Tokyo, Singapore and Chicago.

Working with forward-thinking customers across the globe, our mission is to revolutionise the way life insurance is bought and sold, using next-generation technology to give insurers the power to grow their businesses profitably.

Key Responsibilities

- Develop the front end of an insurance-specific REST application.

Critical Experience

- At least 5 years of programming experience, including 3 on Angular.

Technical/Professional Skills

- Very good knowledge of UI design using bootstrap or material design.
- Good knowledge of agile software development (SCRUM).
- Good knowledge of the technology stack used:
 - Angular 5
 - Typescript
 - Bootstrap
 - HTML5
 - CSS3
 - Ideally, but not necessarily Visual Studio Team System & Azure Devops
- Conceptual knowledge of REST architectures, MVC patterns.
- English (required)
- German (preferable)
- Knowledge of the Life Insurance industry (preferable)
