

Important information about Syndicate Reports and Accounts

Access to this document is restricted to persons who have given the certification set forth below. If this document has been forwarded to you and you have not been asked to give the certification, please be aware that you are only permitted to access it if you are able to give the certification.

The syndicate reports and accounts set forth in this section of the Lloyd's website, which have been filed with Lloyd's in accordance with the Syndicate Accounting Byelaw (No. 8 of 2005), are being provided for informational purposes only. The syndicate reports and accounts have not been prepared by Lloyd's, and Lloyd's has no responsibility for their accuracy or content. Access to the syndicate reports and accounts is not being provided for the purposes of soliciting membership in Lloyd's or membership on any syndicate of Lloyd's, and no offer to join Lloyd's or any syndicate is being made hereby. Members of Lloyd's are reminded that past performance of a syndicate in any syndicate year is not predictive of the related syndicate's performance in any subsequent syndicate year.

You acknowledge and agree to the foregoing as a condition of your accessing the syndicate reports and accounts. You also agree that you will not provide any person with a copy of any syndicate report and accounts without also providing them with a copy of this acknowledgment and agreement, by which they will also be bound.

REPORT OF THE DIRECTORS OF THE MANAGING AGENT

The directors of the Managing Agent present their report for the year ended 31 December 2022.

This annual report is prepared using the annual basis of accounting as required by Statutory Instrument No 1950 of 2008, the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ('the 2008 Regulations').

RESULTS

The profit for calendar year 2022 is £60.5m (2021: profit of £88.9m). Profits will continue to be distributed by reference to the results of individual underwriting years.

PRINCIPAL ACTIVITY AND REVIEW OF THE BUSINESS

During 2022, the Syndicate's principal activity remained the transaction of general insurance and reinsurance business, with a particular focus on the Marine, Energy, Property, Cyber and Specialty sectors.

The Syndicate's key financial indicators are as follows:

	2022	2021
Gross Written Premium	£1,041.1m	£896.7m
Profit for the financial year	£60.5m	£88.9m
Combined Ratio	87.6%	83.7%

The combined ratio is the ratio of claims incurred (net of reinsurance) and operating expenses to earned premiums (net of reinsurance).

2022 was a successful year once again, both from a financial perspective and for the business as a whole. Our staff coped well with business as usual and we also started our future vision under a new long term strategic project. The fact that our main objectives could be achieved is owed to the continued dedication, resilience, commitment and professionalism of all staff. Our workforce cannot be thanked enough for their support and enormous efforts to have mastered these challenges so impressively. Retaining and recruiting staff remains a prime objective. Our hybrid working model is providing staff with great flexibility, but at the same time ensures the office being the centre of collaboration and personal interaction.

Indeed, 2022 was dominated by our new strategic roadmap for business up to 2030 in line with Munich Re's global strategy, particularly for primary specialty business, including MRSL.

The key objective of the project is to establish a leading profitable primary specialty business that builds on the success of our specialty group of companies and other entities within the Munich Re Group. The new structure will be based on a 'product led' concept enabling our underwriters to develop consistent underwriting and risk appetite strategies within product line centres of underwriting excellence. This will be underpinned by an enhanced operations function responsible for implementing investment in data quality and management information. These will enable MRSL to steer its business in alignment with approved strategies and business plans. This aim has a number of facets, including:

1. Growth – To write insurance business to achieve our growth ambition.
2. Staff - Subject to licensing and regulatory requirements, staff to have opportunities right across the group, irrespective of location.
3. Collaboration - Working together as one team.
4. Customers - Build and evolve better products and relationships with our customers.
5. Data - To have consistency and reliability in our processes and data.

A number of strategic decisions were made in 2022 which will support the transformation process in 2023, in relation to both regulated and non-regulated activities. Key objectives of the new project were successfully delivered or kicked off in 2022 particularly around communication, business planning as a global community and operating together within a business led framework.

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

The following table provides a breakdown of gross written premiums by regulatory class categories:

	2022 %	2021 %
Direct insurance		
Marine, Aviation and Transport	37	38
Fire and Other Damage to Property	25	18
Other	18	25
Reinsurance	20	19
Total	100	100

The Syndicate continues to buy an extensive reinsurance programme that is designed to protect the Syndicate's largest anticipated exposure from a single risk or multiple loss events. The 2023 reinsurance renewal undoubtedly was one of the most challenging of all times (possibly only comparable to 2002 following 9/11), both in terms of capacity as well as coverage.

The structure of the Syndicate's reinsurance programme varies from year to year depending on the exposures that the Syndicate writes. The programme is subject to market forces with respect to market capacity, reinsurance terms and conditions; however, as always, the reinsurance is placed with the best quality security that is available. The Syndicate continues to utilise a mixture of Lloyd's syndicates, UK authorised reinsurance companies and international reinsurance companies to ensure comprehensive reinsurance cover is in place. Some of the international companies are EU authorised insurers.

The following table provides an analysis of paid reinsurance premiums for 2022 and 2021:

	2022 %	2021 %
Lloyd's Syndicates	13	14
UK Authorised Companies	14	12
EU Companies	40	40
Other Insurance Companies	33	34
	100	100

PRINCIPAL RISKS AND UNCERTAINTIES

The Board of MRSL ('the Board') sets risk appetite annually as part of the Syndicate's business planning and Solvency Capital Requirement process. Adherence to risk appetite is reviewed by the Board on a periodic basis.

Insurance Risk

Insurance risk, comprising underwriting risk and reserving risk, is the risk of loss arising from the inherent uncertainties about the occurrence, amount and timing of insurance premiums and liabilities. The Board manages insurance risk by agreeing its appetite for those risks annually through the business plan which sets out targets for volumes, pricing, line sizes and retention by class of business. The Board monitors performance against the business plan on a regular basis. The Managing Agent uses catastrophe modelling software to model maximum probable losses from catastrophe exposed business. The Chief Actuary monitors reserve adequacy. Detailed independent reviews of underwriting areas are conducted on a quarterly basis.

Credit Risk

Credit risk relates to the risk of loss if another party fails to perform its financial obligations or fails to perform them in a timely fashion. Key counterparties include reinsurers, brokers, insureds, reinsureds, coverholders, International Distribution Companies ('IDC') and investment counterparties. The Board's policy is that the Syndicate will only reinsure with businesses that have been approved for that purpose. An additional policy of the Board is that all brokers and coverholders must be approved in advance of being permitted to produce business for the Syndicate. Certain Executive Directors of the Board assess and approve reinsurers which do not meet minimum credit rating requirements before business is placed with them and are also responsible for approval and monitoring of the financial strength of brokers who remain on a risk transfer basis. Credit risk on Syndicate investments is managed by a policy of investing mainly in highly rated securities. At the year-end 78.6% (2021: 76.1%) of the Syndicate's managed "Financial Investments" were rated AA or higher or represented by Sovereign and Government Agency debt. The lowest rated security permitted, BBB- rated per S&P, accounted for just 9.7% (2021: 14.3%) of the Syndicate's managed "Financial Investments". Lloyd's requires managing agents to provide a loan based on the premium income limit from the Syndicate business plan in order to fund Lloyd's Europe. The Lloyd's loan accounts for 0.7% (2021: 0.8%) of our holdings and is classed as NR in the "Shares and other variable yield securities" line.

Group Risk

Group risk is the potential of risk events, of any nature, arising in or from membership of a corporate group.

The Syndicate is an integral part of the Munich Re Specialty Group (MRSG) which in turn, is considered a strategic part of the wider Munich Re Group, based in Munich, Germany.

Within MRSG, MRSL operates as a standalone legal entity regulated by Lloyd's, the PRA and the FCA. MRSL operates and maintains its own Board and governance structure, with defined terms of reference and clear lines of authority and accountability. Independent effectiveness reviews of governance are performed on a periodic basis with results reviewed by the MRSL Board.

Munich Re, Germany is both the owner of the Managing Agent and the provider of underwriting capacity to the Syndicate. Munich Re provides reinsurance capacity for a number of classes and whole account protections. Close dialogue exists with the Integrated Risk Management ('IRM') division of Munich Re to discuss any necessary issues. MEAG, an asset management company owned by Munich Re, and the Group Investment Management ('GIM') function in Munich are responsible for the investment and active portfolio management of the Syndicate's investments. There is a regular flow of information between the Syndicate and Munich Re.

Liquidity Risk

Liquidity risk is the risk that sufficient financial resources are not maintained to meet liabilities as they fall due under normal or stressed operating conditions. The Finance Sub-Committee monitors liquidity on a regular basis and has an agreed minimum limit of readily realisable assets. Liquidity risk is further controlled by permitting investment only in assets that are highly liquid and marketable.

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

Market Risk

Market risk is the risk that arises from fluctuations in values of or income from assets, in interest rates or in exchange rates. The Syndicate settles 79.4% (2021: 80.0%) of its insurance business in United States dollars, Euros and Canadian dollars, which gives rise to a potential exposure to currency risk, while a substantial proportion of administrative and personal expenses are incurred in Sterling. The Syndicate mitigates this by adopting a policy of controlled matching of assets and liabilities in both currency and duration. The fixed interest investment portfolio and returns are regularly reviewed and reported to the Board.

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external factors such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. The Syndicate's objective is to manage operational risks to balance financial losses and damage to the Syndicate's reputation with processes that are cost effective and efficient. Risks are managed through the use of detailed procedures manuals, regular oversight and monitoring, and a structured programme of independent reviews by second and third line of defence functions.

Environmental Risk

Coronavirus 19 pandemic

On 11 March 2020, the World Health Organization (WHO) declared the coronavirus 19 (C19) outbreak as a pandemic and throughout 2020-2021, the pandemic escalated into an unprecedented global crisis with significant human and economic repercussions. During 2022, following the rapid development and deployment of vaccines, a vast majority of governments relaxed their C19 restrictions allowing societies to return and adapt to a new normal way of living. Whilst the UK, for example, experienced an initial period of rapid economic activity and growth, this pace has now slowed, if not been stifled by other global events, such as the Ukraine war.

Heading into 2023, whilst the level of C19 pandemic risk is moderately low and there remains some countries still emerging from C19, e.g. China, there is consensus across the risk community that another pandemic is plausible. From an MRSL perspective, future exposures are limited given the inclusion of communicable disease clauses where appropriate. Residual written exposures are not considered material and remain subject to monitoring through established reserving processes.

Geopolitical situation

Geopolitical conflict will remain a dominant risk theme not only due to the ongoing war in the Ukraine, but due to elevated tensions in China-US, the potential for political escalation in the Middle East, and the increasingly polarisation of the American political and social arena.

On 24 February 2023, the Russian invasion of Ukraine will reach its one year anniversary with no visible path to peaceful or political resolution. Whilst the situation remains fluid, MRSL is closely monitoring the situation, particularly in respect of lines of business which may be further impacted by the conflict or market known complexities around coverage. The Syndicate's underwriting performance and financial position are constantly monitored by the Board and through established reserving processes. Support continues to be provided by the Compliance Advisory team with respect to sanctions. Operational disruption from a cyber-attack perspective continues to be monitored by the Munich Re Global Cyber Defence Centre.

Inflation

Disruption to global supply chains, labour shortages and the energy crisis driven by major events such as the C19 pandemic, Brexit and the Ukraine war has led to the highest level of inflation recorded in the UK in thirty years. Whilst inflation rates may have peaked in some advanced economies (Bank of England, February 2023) as the benefits of monetary policy take effect, there remains elevated concerns around inflation rates as inflation dynamics are different across regions and influenced by various factors such as labour and energy prices.

Whilst inflationary pressures remain strong, the International Monetary Fund (January 2023) expects global inflation to fall from 8.8% in 2022 to 6.6% in 2023, and the Bank of England continues to target a 2% inflation rate with current inflation rates (February 2023: 10.5%) expected to further decrease through tightening of monetary policy. Coupled with UK Monetary Policy Committee's projections for the UK economy to fall into a

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

recession for a prolonged period, the UK economic situation remains vulnerable to further deterioration and weakening.

Rising inflation has an impact on insurers' claims costs, reserving, price adequacy, investment returns and capital modelling with the following notable types of inflation:

- Excess inflation refers to all ways in which insurers' claims costs rise over and above general economic inflation. It captures, for example, the growth in costs associated with new materials, medicines and technologies, changes in the legal environment, evolving social attitudes towards claiming and political developments.
- Lloyd's considers social inflation as a subset of excess inflation. This is driven by legislative and litigation developments and impact on insurer legal liabilities and costs. Examples include higher jury awards, increasing number of litigated claims, shifts in juror's sentiment towards claimants, and perceptions of fairness, which places a particular burden for long-tail classes of business (i.e., Liability/Casualty) and is more difficult to forecast and calculate projected ultimate claims estimates.

Consideration by MRS L of inflation is summarised below.

- **Reserving:** As reported to the Reserving Steering Group, the classes that are primarily exposed to excess claims inflation are Cargo, Energy, Engineering, Liability and Property. An allowance for excess claims inflation, including social inflation, has been recognised with appropriateness and adequacy subject to ongoing monitoring.
- **Pricing:** As part of the annual review of pricing models, all pricing models have been updated to allow underwriters to make the necessary adjustments and loadings for exposures to inflation as appropriate. This is dependent on the model and line of business. Generally:
 - For exposure-based lines, e.g., based on sum insured, contract value, turnover, the pricing models are already linked to claims cost / claims trend components. These models are subject to regular indexing. For example, where exposure is based on the number of employees and not on cost, the respective pricing model has a fixed inflation rate added relative to the principal geography of exposure, which is updated on a regular basis.
 - For experience-based models, an explicit allowance has been made for the US/UK CPI index with additional allowance by the underwriter as may be appropriate.

In addition, material risks with substantial inflation exposures are monitored and reviewed by the Pricing team. All underwriters are reminded to consider and price for inflation wherever possible.

- **Investments:** The Syndicate's investment portfolio is primarily invested in government and corporate bonds. Inflationary pressures continue to influence central banks to respond by increasing interest rates which leads to the decreasing value of already low yield bonds. The fluctuations in unrealised/realised investment returns and volatility in performance is being closely monitored by the Finance Steering Committee ("FSC") and GIM.
- **Capital:** Internal model data, parameters and assumptions are reviewed and updated on a regular basis to ensure model outputs for capital related decision making is reasonable. Specifically, for capital adequacy purposes, the allowance for inflation is implied within the model with respect to business plan assumptions and Environmental, Social, and Governance ("ESG") data updates. Appropriateness of such assumptions is subject to regular, at least annual, validation activities.

The Future Regulatory Framework ("FRF") Review – Edinburgh Reforms

In December 2022, the UK Chancellor of the Exchequer announced a package of changes, known as the Edinburgh Reforms, to support the Government's ambition for the UK to be the world's most innovative and competitive global financial centre. This follows the UK's exit from the EU and is launched in conjunction with the Financial Services Market Bill ("FSM Bill").

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

The FSM Bill implements the FRF Review and broadens the role of the PRA with a view of repealing and reforming EU law using powers within the FSM Bill. The ultimate objective being to build a smarter regulatory framework for the UK. There are over 30 major reforms and on initial review the main changes applicable to MRSL including:

- Senior Managers and Certification Regime ('SMCR'): UK Government and Regulators will commence a review on SMCR and look to launch a Call for Evidence to look at the effectiveness, scope and proportionality.
- Consumer Credit Act 1974 ('CCA'): As there is still overlap between CCA and FCA rules, the UK Government will be consulting on how to recast CCA fully into FCA rules.
- Market Reforms: Removal of EU requirements relating to reporting rules.

Whilst there is still some uncertainty as to the final terms of FSM Bill and of the final regulatory framework for financial services and the consequences that may subsequently arise, MRSL, have sought to mitigate the volatility of the resultant uncertainties where known. The Board is confident that Syndicate 457's future performance should not be materially impacted by changes to the final regulatory framework for financial services.

Lloyd's Insurance Company S.A. (Lloyd's Europe)

Lloyd's established Lloyd's Insurance Company S.A., a subsidiary in Brussels (Lloyd's Europe) to enable its European partners and policyholders to retain access to the underwriting expertise of the Lloyd's market via a distribution channel of brokers, coverholders, and syndicates. Lloyd's Europe is an insurance company authorised and regulated by the National Bank of Belgium and capitalised under Solvency II rules. The subsidiary is assigned the equivalent financial ratings as Lloyd's from A.M Best (A), Fitch (AA-) and Standard & Poor's (A+).

Since 1 January 2019, all new non-life European Economic Area ("EEA") and Monaco direct insurance policies are written by Lloyd's Europe and all renewing EEA and Monaco non-life direct insurance policies are transferred to Lloyd's Europe on their renewal.

Since 1 January 2022, a new Lloyd's EU operating model was implemented following approval by Financial Services and Markets Authority ('FSMA'), the Belgian regulators. MRSL has adopted the new operating model solution which includes the secondment of Managing Agent underwriters and deployment of staff to the Lloyd's Insurance Company ('LIC') UK Branch of Lloyd's Europe. This solution provides continued access to EEA business for the Lloyd's market.

Climate change related risk

The Managing Agent and the Syndicate maintains abreast of climate change developments in its regulatory environment.

Following its October 2021 report "accelerating the transition to a more sustainable insurance and reinsurance marketplace" and its new Fundamental Principles oversight framework in 2022, Lloyd's maintains its expectations of managing agents for implementing a broader ESG strategy and supporting a sustainable transition to net zero. With respect to climate change, the Syndicate will be expected to provide its own assessment for meeting Lloyd's expectations for implementing climate change specific strategies and considerations for underwriting, investments and operations.

Being part of the Munich Re Group, the Managing Agent and the Syndicate benefit from Munich Re Group policies and initiatives to meet its corporate responsibilities for ESG topics across its insurance business, investment activities and business operations. Specifically, Munich Re Group are committed towards supporting environmental initiatives and have voluntarily signed the Principles of Sustainable Insurance ('PSI') and Principles for Responsible Investment ('PRI') as established by the United Nations Environment Programme ('UNEP'). In December 2020, Munich Re Group published ambitious environmental protection targets for its core insurance business, investment and business operations. In addition, Munich Re Group continues to progress developments in climate change by developing new products and services, investing in sustainable sectors and projects, and minimising its own CO₂ footprint (see also MR Group Sustainability Report, 2022).

In March 2021, the MRSL Board approved its Climate Change Strategy for the Managing Agent which is based on the targets previously published by MR Group and Lloyd's (December 2020). The implementation of the

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

MRSL strategy including transition towards sustainable insurance and investment activities, leverages from those activities of the Munich Re Group. In support of this strategy, the MRSL Board made a decision to withdraw from writing traditional Oil & Gas business from 1 January 2023. In addition, MRSL will be looking to write renewables and green tech subject to Board and regulatory approvals. MRSL will continue to write coverage for oil and gas risks that fall into other lines, such as cyber, casualty and political violence.

Following the appointment of a new Head of ESG, the Managing Agent and the Syndicate will accelerate its programme of activities to further expand upon its corporate responsibilities towards environmental issues in line with its Climate Change Strategy. Furthermore, the Managing Agent will continue to progress actions designed to meet the PRA's expectations of UK insurance firms to identify and manage financial risks from climate change. MRSL has a risk management programme to monitor and manage some elements of climate change related risks including aggregate exposure management. The Chief Underwriting Officer ('CUO') as the senior management function holder is deemed responsible for this programme with the support from the risk function. The Board is apprised of developments.

Culture including Diversity & Inclusion (D&I)

As a specific element of ESG, Culture including DE&I (Diversity, Equity and Inclusion), or 'D&I', continues to feature high on the agenda of boards and the regulators. Notably, from the 2018 FCA publication "Transforming culture in financial services" through to the new Lloyd's Fundamental Principle for Culture (2022), there is an increased focus on demonstrating good culture and promoting DE&I.

MRSL, as part of Munich Re Specialty Group ('MRSG') and a wider network of Munich Re entities in the UK, has been active in its response to the challenges of Culture related topics. Culture is sponsored by the MRSL Board and remains a standing agenda item on the MRSL Board and Executive Committee. Since 2019, MRSG UK Services Limited ('MRSGUKS') has established a Culture Committee, which aims to improve and develop a diverse and inclusive culture and working environment for all employees. The Culture Committee supports the Executive Committee by providing a voice for all employees and supporting culture initiatives across themes including DE&I and talent development.

Notable culture-related topics and activities during 2022 (which will continue into future years) across Munich Re UK entities include:

- Appointment of a new Head of DE&I to support development and implementation of a new UK wide DE&I Strategy;
- Introduction of a new DE&I training course which is being rolled out to all UK Munich Re entities from 1 January 2023;
- Promotion of notable culture events such as awareness weeks around Disability, Mental Health, Black History Month and the Lloyd's Dive In Festival;
- An initiative to collate basic DE&I data for MRSL employees to gauge current level of diversity; and
- On-going efforts to reduce the gender pay gap.

Cyber Risk

Cyber threats and, consequentially, cyber risk, have noticeably increased in the pandemic crisis as cyber-criminals seek to exploit the potential vulnerability of businesses and remote working environments. Munich Re remains resilient in extending and maintaining a secure platform to incorporate remote working whilst recognising an increased threat of phishing attacks, ransomware and fraud on its business. Security controls are based on Munich Re Group defined standards and are continuously improved to keep pace with the evolving cyber threat, including regular security and social engineering awareness communications, additional security training and new phishing reporting tools.

In 2022, there have been no material Cyber Security or Data Protection breaches nor successful intrusions identified of the MRSL network. Whilst there continues to be an increase in phishing attempts, these have not been successful. In addition, whilst the MRSL Emergency Management Group ('EMG') and the Risk Management team were involved in the monitoring and response to cyber attacks on third parties, there was no material impact on MRSL's systems, data or important business services.

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

Cyber threat intelligence from the MR Global Cyber Defence Centre ('GCDC') is shared within Munich Re, and expert security resource is available should there be an information security incident. Munich Re undertakes a regular programme of patching, Vulnerability and Penetration Testing ('VAPT') of IT systems and appropriate actions are taken to address any vulnerabilities identified. Security controls are regularly assessed for control design and performance effectiveness as coordinated by the Munich Re Group IT & Risk Security team, with the results reported to Munich Re Integrated Risk Management. In the event of a breach there are established security incident response protocols and processes to ensure the incident is contained, resolved and reported appropriately.

DIRECTORS

The Directors of the Managing Agent who held office during the year ended 31 December 2022 were as follows:

L F Allen (Non-executive)
E J Andrewartha (Non-executive Chair)
T E Artmann
R J Attwood
T J Carroll (Non-executive)
T Coskun
S H Herrmann (Non-executive)
M C Hewett (Non-executive)
D J R Hoare
A C Maxwell (Resigned 30 June 2022)

COMPANY SECRETARY

The company secretary of the Managing Agent who held office during the year ended 31 December 2022 is as follows:

T Coskun

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

INVESTMENTS

Investment Policy and Managers

The Managing Agent mandated Group Investment Management (GIM) to manage all of the Syndicate funds. GIM is a division of the Munich Re Group in charge of investment management of all Group assets. GIM selected MEAG, the inhouse asset manager of the Munich Re Group, to manage Syndicate funds against benchmarks approved by the Board, which had been generated from the examination of the underlying profile of the underwriting liabilities and applying an Asset-Liability Matching model.

The Lloyd's Dollar Trust Fund, which comprises the largest proportion of funds, is managed against a composite of Barclays indices for US Treasuries (62%), US Credit 1-5 years excluding financials (28%) and US Agencies (10%). The US situs funds and Singapore funds are managed jointly against a US Treasury 1-3 years benchmark.

The Canadian Dollar Trust Funds were invested to replicate liabilities with no active benchmark.

The Euros Trust Fund was managed against a benchmark comprising 5% money market, 50% government index with maturities 1-3 years and 45% with maturities 3-5 years.

The Sterling Trust Fund was managed against a benchmark comprising 23% money market, 33% government index with maturities 1-3 years, 20% with maturities 3-5 years and 24% with maturities 5-7 years.

Overall the duration of the managed portfolio at the year-end was 1.82 years, which is 0.4 years lower than at the year-end 2021.

For each of the managed funds the Board has set certain restrictions in terms of sector limits and individual issuer limit. In addition each portfolio is subject to a minimum average credit rating.

Investment Performance

The 2022 calendar year investment performance is as follows:

Currency	Fund Return %	Benchmark Return %
US dollars	(3.38)	(3.34)
Canadian dollars	(1.06)	-
Sterling (active)	(5.51)	(5.47)
Sterling (Credit buy-and-maintain)	(10.28)	-
Euros	(6.93)	(6.73)

The combined 2022 calendar year investment performance of the managed portfolio is -4.45% compared to a benchmark of -4.40%.

FUTURE DEVELOPMENTS

The 2023 Syndicate Business Forecast ('SBF') has been approved, as specified by Lloyd's, to write with a capacity of £1,200m (2022: £825m).

A decision was made in the year to exit from Offshore Energy business, given the growing challenges and increasing difficulties to remain a sustainable business partner in that segment, and also because of our desire to invest in green solutions business and become a major insurer in that field. A further decision taken was to put our other managed syndicate, Innovation Syndicate 1840 (the first Syndicate in a Box (SiaB) at Lloyd's), into an orderly run-off and to integrate its business into Syndicate 457. This was in line with the original concept of a three year life span for a SiaB.

It was agreed by the Board to establish a new business segment "portfolio solutions". This business aims to write a ring-fenced book of follow portfolio business on a primary delegated authority basis, thus designed to increase cost efficiencies. A key success factor will be data analytics. The strategy is based on the ability to gather data

REPORT OF THE DIRECTORS OF THE MANAGING AGENT (continued)

and expertise by partnering with established brokers and leads with the capability to provide portfolio data that can be effectively analysed.

Quite rightly, all aspects of ESG are becoming increasingly important for our business and a new ESG function has been created. MRSL is also fully aligned with the climate ambition of the Munich Re Group (as highlighted above in respect of Offshore Energy). Furthermore, Culture and DE&I have been high on the agenda of the Board and will continue to be so, promoting a diverse culture in our organisation and in the design of our future DE&I strategy. Consideration of diversity and inclusion in recruitment and succession planning has become the norm.

At the end of the year a restructuring of the Board of Management of Munich Re was announced which substantiated Munich Re's commitment to specialty insurance business underwritten by Syndicate 457 and its strategic importance to the Group.

SYNDICATE ALLOCATED CAPACITY AND MEMBERSHIP OF THE SYNDICATE

The capacity of the Syndicate is based on Gross Net premiums and increased for the 2023 year of account at £1,200m (2022 year of account: £825m). All of the capacity of the Syndicate is provided by Munich Re Capital Limited ('MRCL'), an indirect subsidiary of Munich Re.

GOING CONCERN

After making enquiries, the directors of the Managing Agent have a reasonable expectation that continued capital support will be in place such that the Syndicate is able to write new business in future underwriting years of account. Accordingly, they continue to adopt the going concern basis in preparing the annual accounts.

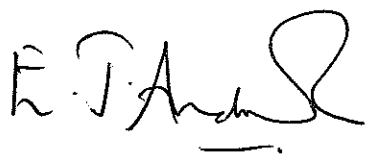

DISCLOSURE OF INFORMATION TO THE AUDITORS

The directors of the Managing Agent who held office at the date of approval of this Managing Agent's report confirm that, so far as they are each aware, there is no relevant audit information of which the Syndicate's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Syndicate's auditor is aware of that information.

AUDITORS

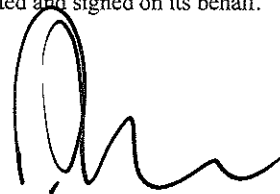

In accordance with section 14(2) of Schedule 1 of the Lloyd's Regulations 2008, the auditors, Ernst & Young LLP, will be deemed to be reappointed and therefore continue in office.

Approved by a resolution of the Board of Directors of Munich Re Syndicate Limited and signed on its behalf.

E J Andrewartha
Non-Executive Chair

27 February 2023

D J R Hoare, ACII
Chief Underwriting Officer

27 February 2023

STATEMENT OF MANAGING AGENT'S DIRECTORS' RESPONSIBILITIES

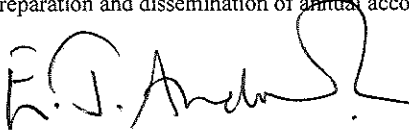

The managing agent is responsible for preparing the Syndicate annual accounts in accordance with applicable law and regulations.

The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 require the managing agent to prepare Syndicate annual accounts at 31 December each year in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The Syndicate annual accounts are required by law to give a true and fair view of the state of affairs of the Syndicate as at that date and of its profit or loss for that year.

In preparing the Syndicate annual accounts, the managing agent is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the notes to the Syndicate accounts; and
- Prepare the Syndicate accounts on the basis that the Syndicate will continue to write future business unless it is inappropriate to presume that the Syndicate will do so.

The Managing Agent is responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Syndicate and enable it to comply with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. It is also responsible for safeguarding the assets of the Syndicate and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. The managing agent is responsible for the maintenance and integrity of the corporate and financial information included on the business' website. Legislation in the United Kingdom governing the preparation and dissemination of annual accounts may differ from legislation in other jurisdictions.

On behalf of the Board

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SYNDICATE 457

Opinion

We have audited the syndicate annual accounts of syndicate 457 ('the syndicate') for the year ended 31 December 2022 which comprise the Statement of Profit and Loss, the Balance Sheet, the Statement of Changes in Member's Balances, the Statement of Cash Flows and the related notes 1 to 28, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and FRS 103 'Insurance Contracts' (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the syndicate annual accounts:

- give a true and fair view of the syndicate's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the syndicate annual accounts section of our report. We are independent of the syndicate in accordance with the ethical requirements that are relevant to our audit of the syndicate annual accounts in the UK, including the FRC's Ethical Standard as applied to other entities of public interest, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the syndicate annual accounts, we have concluded that the managing agent's use of the going concern basis of accounting in the preparation of the syndicate annual accounts is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the syndicate's ability to continue as a going concern for a period of 12 months from when the syndicate annual accounts are authorised for issue.

Our responsibilities and the responsibilities of the managing agent with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the syndicate's ability to continue as a going concern.

Other information

The other information comprises the information included in the Annual Accounts, other than the syndicate annual accounts and our auditor's report thereon. The directors of the managing agent are responsible for the other information contained within the Annual Accounts.

Our opinion on the syndicate annual accounts does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the syndicate annual accounts or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the syndicate annual accounts themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SYNDICATE 457 (continued)

Opinions on other matters prescribed by The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the managing agent's report for the financial year in which the syndicate annual accounts are prepared is consistent with the syndicate annual accounts; and
- the managing agent's report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the syndicate and its environment obtained in the course of the audit, we have not identified material misstatements in the managing agent's report.

We have nothing to report in respect of the following matters where The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 requires us to report to you, if in our opinion:

- the managing agent in respect of the syndicate has not kept adequate accounting records; or
- the syndicate annual accounts are not in agreement with the accounting records; or
- certain disclosures of the managing agents' emoluments specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of the managing agent

As explained more fully in the Statement of Managing Agent's Responsibilities set out on page 13, the managing agent is responsible for the preparation of the syndicate annual accounts and for being satisfied that they give a true and fair view, and for such internal control as the managing agent determines is necessary to enable the preparation of the syndicate annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the syndicate annual accounts, the managing agent is responsible for assessing the syndicate's ability to continue in operation, disclosing, as applicable, matters related to its ability to continue in operation and using the going concern basis of accounting unless the managing agent either intends to cease to operate the syndicate, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the syndicate annual accounts

Our objectives are to obtain reasonable assurance about whether the syndicate annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these syndicate annual accounts.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the managing agent and management.

Our approach was as follows:

- We obtained a general understanding of the legal and regulatory frameworks that are applicable to the syndicate and determined that the most significant are direct laws and regulations related to elements of Lloyd's Byelaws and Regulations, and the financial reporting framework (UK GAAP). Our considerations

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SYNDICATE 457 (continued)

of other laws and regulations that may have a material effect on the syndicate annual accounts included permissions and supervisory requirements of Lloyd's of London, the Prudential Regulation Authority ('PRA') and the Financial Conduct Authority ('FCA').

- We obtained a general understanding of how the syndicate is complying with those frameworks by making enquiries of management, internal audit, and those responsible for legal and compliance matters of the syndicate. In assessing the effectiveness of the control environment, we also reviewed significant correspondence between the syndicate, Lloyd's of London and other UK regulatory bodies; reviewed minutes of the Board and Audit Committee of the managing agent; and gained an understanding of the managing agent's approach to governance.
- For direct laws and regulations, we considered the extent of compliance with those laws and regulations as part of our procedures on the related syndicate annual accounts' items.
- For both direct and other laws and regulations, our procedures involved: making enquiries of the directors of the managing agent and senior management for their awareness of any non-compliance with laws or regulations, enquiring about the policies that have been established to prevent non-compliance with laws and regulations by officers and employees, enquiring about the managing agent's methods of enforcing and monitoring compliance with such policies, and inspecting significant correspondence with Lloyd's, the FCA and the PRA.
- The syndicate operates in the insurance industry which is a highly regulated environment. As such the Senior Statutory Auditor considered the experience and expertise of the engagement team to ensure that the team had the appropriate competence and capabilities, which included the use of specialists where appropriate.
- We assessed the susceptibility of the syndicate's annual accounts to material misstatement, including how fraud might occur by considering the controls that the managing agent has established to address risks identified by the managing agent, or that otherwise seek to prevent, deter or detect fraud. We also considered areas of significant judgement and the risk that these judgements may be subject to management bias. Where this risk was considered to be higher, we performed audit procedures to address each identified fraud including the risk of fraud in valuation of gross incurred but not reported reserves and the valuation of estimated premium.
- Our audit procedures included:
 - Reviewing accounting estimates for evidence of management bias. Supported by our Actuaries we assessed if there were any indicators of management bias in the valuation of gross incurred but not reported reserves and the recognition of estimated premium income.
 - Testing the appropriateness of journal entries recorded in the general ledger, particularly in respect of judgemental areas including gross incurred but not reported reserves and estimated premium income.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the syndicate's members, as a body, in accordance with The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. Our audit work has been undertaken so that we might state to the syndicate's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the syndicate and the syndicate's members as a body, for our audit work, for this report, or for the opinions we have formed.

Cash and cash equivalents at end of year	23	126,608	78,576

The notes on pages 23 to 50 form an integral part of these annual accounts.

1. BASIS OF PREPARATION

The Syndicate comprises a single corporate member of Lloyd's, Munich Re Capital Limited, that underwrites insurance business in the London Market.

The financial statements have been prepared in accordance with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and the United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" ("FRS102"), and "Insurance Contracts" ("FRS 103"). Furthermore, they also comply with the provisions of Schedule 3 of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations relating to insurance companies. The directors of the Managing Agent have prepared the financial statements on the basis that the Syndicate will continue to write future business.

The financial statements have been prepared on the historical cost basis, except for financial assets categorised as fair value through profit or loss that are measured at fair value.

The financial statements are presented in Pound Sterling ('GBP'), which is the Syndicate's functional currency. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

The address of the Syndicate's managing agent is St. Helens, 1 Undershaft, London EC3A 8EE.

2. USE OF JUDGEMENTS AND ESTIMATES

In preparing these financial statements, the directors of the Managing Agent have made judgements, estimates and assumptions that affect the application of the Syndicate's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results will differ from these estimates, and, along with the underlying assumptions, are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

(a) Claims Reserving

The measurement of the provision for claims outstanding involves judgements and assumptions about the future that have a very significant effect on the amounts recognised in the financial statements.

The provision for claims outstanding comprises the estimated cost of settling all claims incurred but unpaid at the balance sheet date, whether reported or not. This is a judgemental and complex area due to the subjectivity inherent in estimating the impact of claims events that have occurred but for which the eventual outcome remains uncertain. In particular, judgement is applied when estimating the value of amounts that should be provided for claims that have been incurred at the reporting date but have not yet been reported ('IBNR') to the Syndicate (see note 16).

The amount included in respect of IBNR is based on statistical techniques of estimation applied by the Syndicate Managing Agent's in-house actuaries. The techniques used generally involve projecting the development of claims over time from past experience, with adjustment for more recent underwriting, having regard to variations in business accepted and the underlying terms and conditions. The provision for claims also includes amounts in respect of internal and external claims handling costs. For the most recent years, where a high degree of volatility arises from projections, estimates may be based in part on output from rating and other models of business accepted and assessments of underwriting conditions.

In arriving at the level of claims provisions a margin is applied over and above the actuarial best estimate so no adverse run-off deviation is envisaged.

(b) Premium Estimates

Written premiums for closed years of account are based on signings. Written premium estimates for open years of account are set via the process as described as follows:

Ultimate premium estimates take into account all available information sources including business plans, underwriter estimated premium income ('EPI') and actuarial projections. For the first few development quarters, the premium estimates are based on business plans and underwriter estimates as these capture

2. USE OF JUDGEMENTS AND ESTIMATES (continued)

(b) Premium Estimates (continued)

the expert knowledge from the underwriting department on the business volumes that are expected to be written and the anticipated premium rates. Thereafter the EPI and/or actuarial projections are used as a guide for the ultimate premium selections, as these indicators become more reliable once all underlying policies have been written and more data is available on premium signings & rates. The gross premium estimate of £405.5m (2021: £351.4m) is included in the debtors balance, with the RI share of £79.3m (2021: £90.0m) being included in the creditors balance on the balance sheet (pages 19 and 20 respectively).

Written and earned premium patterns are applied to ultimate premiums. These patterns are derived utilising policy data from the previous underwriting year to set the current pattern expectations due to the need to set these patterns at the outset of the underwriting year. For newer classes, as well as those with more underwriting variability, input is obtained from the pricing & underwriting experts to assist in the setting of appropriate premium patterns.

Premiums are recognised as earned on a pro rata basis over the term of the related policy, except for those contracts where the period of risk differs significantly from the contract period. In these circumstances, premiums are recognised over the period of risk in proportion to the amount of insurance protection provided. For binder business, premium is recognised as written on a pro rata basis over the term of the related policy with earning recognition being applied on a pro rata basis to the amounts written.

3. SIGNIFICANT ACCOUNTING POLICIES

The following principal accounting policies have been applied consistently in dealing with items which are considered material in relation to the Syndicate's annual accounts.

(a) Gross Premiums Written

Gross Premiums Written comprise premiums on contracts inception during the 12 months to 31 December, together with any adjustments made in the year to premiums relating to prior accounting periods. Premiums are shown gross of commission payable and exclude taxes and duties levied on them. Estimates are made for pipeline premiums, representing amounts due to the Syndicate not yet notified.

(b) Unearned Premiums

Written premiums are recognised as earned according to the risk profile of the policy. Unearned premiums represent the proportion of premiums written in the year that relate to unexpired terms of policies in force at the balance sheet date, calculated on the basis of established earnings patterns or time apportionment as appropriate.

(c) Reinsurance Premium Ceded

Outwards reinsurance premiums are accounted for in the same accounting period as the premiums for the related direct or inwards business being reinsured.

(d) Claims Provisions and Related Recoveries

Gross claims incurred comprise the estimated cost of all claims occurring during the year, whether reported or not, including related direct and indirect claims handling costs and adjustments to claims outstanding from previous years.

The provision for claims outstanding is assessed on an individual case basis and is based on the estimated ultimate cost of all claims notified but not settled by the balance sheet date, together with the provision for related claims handling costs. The provision also includes the estimated cost of claims IBNR at the balance sheet date based on statistical methods.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Claims Provisions and Related Recoveries (continued)

These methods generally involve projecting from past experience of the development of claims over time to form a view of the likely ultimate claims to be experienced for more recent underwriting, having regard to variations in the business accepted and the underlying terms and conditions. For the most recent years, where a high degree of volatility arises from projections, estimates may be based in part on output from rating and other models of the business accepted and assessments of underwriting conditions. The amount of salvage and subrogation recoveries is separately identified and, where material, reported as an asset.

The reinsurers' share of provisions for claims is based on the amounts of outstanding claims and projections for IBNR, net of estimated irrecoverable amounts, having regard to the reinsurance programme in place for the class of business, the claims experience for the year and the current security rating of the reinsurance companies involved. A number of statistical methods are used to assist in making these estimates.

The two most critical assumptions with regards to claims provisions are that the past is a reasonable predictor of the likely level of claims development and that the rating and other models used for current business are fair reflections of the likely level of ultimate claims to be incurred.

The directors of the Managing Agent consider that the provisions for gross claims and related reinsurance recoveries are fairly stated based on the information currently available to them. However, the ultimate liability will vary as a result of subsequent information and events, and this may result in significant adjustments to the amounts provided. Adjustments to the amounts of claims provisions established in prior years are reflected in the financial statements for the period in which the adjustments are made. The methods used, and the estimates made, are reviewed regularly.

(e) Unexpired Risks Provision

A provision for unexpired risks is made where claims and related expenses arising after the end of the financial period in respect of contracts concluded before that date, are expected to exceed the unearned premiums and premiums receivable under these contracts, after the deduction of any acquisition costs deferred.

Unexpired risk surplus and deficits are offset where in the opinion of the directors the business classes concerned are managed together and in such cases a provision for unexpired risks is made only where there is an aggregate deficit. At 31 December 2022 the Syndicate did not have an unexpired risks provision (31 December 2021: £Nil).

(f) Acquisition Costs

Acquisition costs, which represent commission and other expenses related to the acquisition of new insurance contracts, are deferred to the extent that they are attributable to premiums unearned at the balance sheet date. In addition to third party brokerage, acquisition costs include IDC costs and a proportion of Syndicate costs including all box rent, underwriters' employment costs and an allocation of accommodation and IT costs.

(g) Foreign Currencies

Transactions in foreign currencies are translated to the functional currency using the exchange rates at the date of the transactions. The Syndicate's monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the rates of exchange at the balance sheet date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured at historic cost are translated to the functional currency using the exchange rate at the date of the transaction. For the purposes of foreign currency translation, unearned premiums and deferred acquisition costs are treated as if they are monetary items. Differences arising on translation of foreign currency amounts relating to the insurance operations of the Syndicate are included in the non-technical account.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Financial assets and liabilities

In applying FRS 102, the Syndicate has chosen to apply the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement (as adopted for use in the UK).

Classification

The accounting classification of financial assets and liabilities determines the way in which they are measured and changes in those values are presented in the Statement of Profit and Loss. Financial assets and liabilities are classified on their initial recognition. Subsequent reclassifications are permitted only in restricted circumstances.

Financial assets and financial liabilities at fair value through profit and loss comprise financial assets and financial liabilities held for trading and those designated as such on initial recognition. Investments in shares and other variable yield securities, units in unit trusts, and debt and other fixed income securities are designated as at fair value through profit or loss on initial recognition, as they are managed on a fair value basis in accordance with the Syndicate's investment strategy.

Deposits with credit institutions, debtors, and accrued interest are classified as loans and receivables.

Recognition

Financial instruments are recognised when the Syndicate becomes a party to the contractual provisions of the instrument. Financial assets are derecognised if the Syndicate's contractual rights to the cash flows from the financial assets expire or if the Syndicate transfers the financial asset to another party without retaining control of substantially all risks and rewards of the asset.

A financial liability is derecognised when its contractual obligations are discharged, cancelled, or expire.

Purchases and sales of financial assets are recognised and derecognised, as applicable, on the trade date, i.e., the date that the Syndicate commits itself to purchase or sell the asset.

Measurement

A financial asset or financial liability is measured initially at fair value plus, for a financial asset or financial liability not at fair value through profit and loss, transaction costs that are directly attributable to its acquisition or issue.

Financial assets at fair value through profit or loss are measured at fair value with fair value changes recognised immediately in profit or loss. Net gains or net losses on financial assets measured at fair value through profit or loss includes foreign exchange gains/losses arising on their translation to the functional currency but excludes interest and dividend income.

Loans and receivables and non-derivative financial liabilities are measured at amortised cost using the effective interest method.

Identification and measurement of impairment

At each reporting date the Syndicate assesses whether there is objective evidence that financial assets not at fair value through profit or loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of an asset, and that the loss event has an impact on the future cash flows on the asset that can be estimated reliably.

Objective evidence that financial assets are impaired includes observable data that comes to the attention of the Syndicate about any significant financial difficulty of the issuer, or significant changes in the technological, market, economic or legal environment in which the issuer operates.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Financial assets and liabilities (continued)

An impairment loss recognised reduces directly the carrying amount of the impaired asset. All impairment losses are recognised in profit or loss. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost the reversal is recognised in profit or loss.

Off-setting

Financial assets and financial liabilities are set off and the net amount presented in the balance sheet when, and only when, the Syndicate currently has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Investment Return

Investment return comprises all investment income, realised investment gains and losses and movements in unrealised gains and losses, net of investment expenses, charges and interest.

Realised gains and losses on investments carried at fair value are calculated as the difference between sale proceeds and purchase price. Unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and their valuation at the previous balance sheet date, or purchase price, if acquired during the year, together with the reversal of unrealised gains and losses recognised in earlier accounting periods in respect of investment disposals in the current period.

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account to reflect the investment return on funds supporting underwriting business.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in fair value and are used by the Syndicate in the management of its short-term commitments.

Cash and cash equivalents are carried at amortised cost in the balance sheet.

(i) Taxation

Under Schedule 19 of the Finance Act 1993 Managing Agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from syndicate investment income is recoverable by Managing Agents and consequently the distribution made to members or their members' agents is gross of tax. Capital appreciation falls within trading income and is also distributed gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the Syndicate during the year are included in the balance sheet under the heading 'other debtors'. No provision has been made for any overseas tax payable by the member on underwriting results.

(j) Pension Costs

The Managing Agent operates in conjunction with other Group companies, a funded contributory defined benefit scheme. This scheme was closed for new members in 2000. The assets of the scheme are held separately from those of the Managing Agent, being invested with Barclays Stockbrokers. Contributions to the scheme are charged to the Statement of Profit and Loss so as to spread the cost of pensions over employees working lives with the Managing Agent and are included in net operating costs. The scheme was closed for future accruals on 31 December 2009. During 2014, all active members from 1 January 2010 onwards were transferred to the defined contribution scheme, and, as an alternative choice to the defined contribution scheme, the Managing Agent offered a Group Self Invested Pension Scheme. Pension contributions relating to Syndicate staff are charged to the Syndicate and included within net operating expenses.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Pension Costs (continued)

The most recent triennial valuation (as performed at 31 December 2021) showed that there was a surplus of 11% in the defined scheme which was equivalent to £19.2m. The main reason for the change was better than assumed investment returns, offset by the impact of a change in valuation assumptions.

(k) Profit Commission

The Managing Agent does not charge any profit commission.

4. RISK AND CAPITAL MANAGEMENT

Framework

This note presents information about the nature and extent of insurance and financial risks to which the Syndicate is exposed, the Managing Agent's objectives, policies and processes for measuring and managing insurance and financial risks, and for managing the Syndicate's capital.

The Board sets risk appetite annually as part of the Syndicate's business planning and Solvency Capital Requirement process. Risk appetite is subsequently reviewed by the Managing Agent on a periodic basis. The Managing Agent has a Risk Forum which meets monthly to review and update the risk register and to monitor performance against risk appetite. The Risk & Capital Committee, a sub-committee of the Managing Agent's Board, met throughout the year to review and challenge risk management and the use of the internal model for capital calculation purposes.

The Managing Agent is required to comply with the requirements of the PRA, the FCA and Lloyd's. Lloyd's requirements include those imposed on the Lloyd's market by overseas regulators, particularly in respect of US Situs business. The Compliance Officer monitors regulatory developments and assesses the impact on Managing Agent policy. The principal risks and uncertainties, in addition to the regulatory and compliance risk facing the Syndicate and consequently Munich Re Capital Limited are monitored in line with the six risk groups, of which Insurance Risk is by far the most significant to the Syndicate.

Insurance Risk

Insurance risk, comprising underwriting risk and reserving risk, is the risk of loss arising from the inherent uncertainties about the occurrence, amount and timing of insurance premiums and liabilities.

The risk exposure is mitigated by seeking to have a diverse but balanced portfolio of risks across a number of underwriting classes written on a global basis. A further key component of the management of portfolio volatility is via the IDC network operating in established broker-based markets around the world. These companies are focused on writing local market business that would not necessarily be shown to the London market.

The annual business plan sets out the classes of business, the territories, average line size and type of assured. These plans are approved by the Board and monitored by the Underwriting and Claims Sub-Committee.

It is the policy of the Managing Agent to purchase appropriate reinsurance to support the business plan taking into consideration the MRSL Board's risk appetite and risk retention as well as a review of risk accumulation. With security being of paramount importance, the Syndicate places as much of the programme as possible with reinsurers of the highest calibre, subject to availability and market conditions. The key aim of the non-proportional treaty programme is to maintain cover, both for a single catastrophe loss (vertical) or a sequence of major losses (horizontal). In addition to this the Syndicate purchased significant additional quota share reinsurance as part of its risk management strategy. The Syndicate also purchases facultative reinsurance within the retention to protect the volatility of certain accounts.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

4. RISK AND CAPITAL MANAGEMENT (continued)

The Syndicate's exposure to insurance risk is well diversified. The following table provides an analysis of the geographical breakdown of its gross written premium.

2022	USA £000	UK £000	Canada £000	Australia £000	Rest of World £000	Total £000

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

4. RISK AND CAPITAL MANAGEMENT (continued)

Sensitivity to insurance risk

The liabilities established could be significantly lower or higher than the ultimate cost of settling the claims arising. A five percent increase or decrease in total claims liabilities would have the following effect on profit or loss and equity:

	2022 £000		2021 £000	
	5 percent increase	5 percent decrease	5 percent increase	5 percent decrease
Gross claims outstanding	(61,056)	61,056	(46,269)	46,269
Net claims outstanding	(42,476)	42,476	(32,312)	32,312

The Syndicate uses both its own and commercially available proprietary risk management software to assess catastrophe exposure. However, there is always a risk that the assumptions and techniques used in these models are unreliable or that claims arising from an unmodelled event are greater than those arising from a modelled event.

Financial Risk

The focus of financial risk management for the Syndicate is ensuring that the proceeds from its financial assets are sufficient to fund the obligations arising from its insurance contracts. The main components of Financial Risk are Credit, Liquidity and Market risks.

(a) Credit Risk

Credit risk relates to the risk of loss if another party fails to perform its obligations or fails to perform them in a timely fashion.

The investment mandate sets out to minimise credit risk by requiring the individual investment portfolios to maintain an average portfolio quality equivalent to A+ per Standard & Poor's ('S&P'). There are also limits within the mandate to manage the exposure to individual issuers. The investment manager provides a qualitative analysis, on a quarterly basis, of the lowest rated security on the portfolio. No securities may be purchased that are rated below BBB-.

The investment guidelines do not permit use of derivatives or securities lending.

There are counterparty limits in place for each of the cash accounts held with Citibank NA, NatWest Group plc, and Royal Bank of Canada. These are monitored daily and reported on a weekly basis. Reinsurance is placed with counterparties that have a good credit rating. There is a limited pool of approved reinsurers and any reinsurance that is placed with reinsurers not within this pool requires the approval of certain Executive Directors. All reinsurance is subject to regular internal review.

The following table analyses the credit rating by investment grade of financial investments, reinsurers' share of technical provisions, debtors arising out of direct insurance and reinsurance operations, cash at bank and in hand, and other debtors and accrued interest that are neither past due, nor impaired.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

4. RISK AND CAPITAL MANAGEMENT (continued)

(a) Credit Risk (continued)

The Syndicate has debtors arising from direct insurance and reinsurance operations that are past due but not impaired at the reporting date. The Syndicate does not consider these debtors to be impaired on the basis they are still deemed and confirmed to be collectable.

These debtors have been individually assessed for impairment by considering information such as the occurrence of significant changes in the counterparty's financial position, patterns of historical payment information and disputes with counterparties.

An analysis of the carrying amounts of past due or impaired debtors is presented in the tables below.

	Financials assets that are past due but not impaired						Total
	Neither due nor impaired	Up to three months	Three to six months	Six months to one year	Greater than one year	Impaired	
	£000	£000	£000	£000	£000	£000	
Insurance debtors	338,842	2,460	1,384	212	144	(526)	342,516
Reinsurance debtors	154,305	16,150	10,679	18,052	8,600	(9)	207,777
Other debtors	4,817	-	-	-	-	-	4,817
Total credit risk	497,964	18,610	12,063	18,264	8,744	(535)	555,110

	Financials assets that are past due but not impaired						Total
	Neither due nor impaired	Up to three months	Three to six months	Six months to one year	Greater than one year	Impaired	
	£000	£000	£000	£000	£000	£000	
Insurance debtors	271,264	2,901	387	296	526	(523)	274,851
Reinsurance debtors	138,028	20,512	12,129	1,425	1,253	(9)	173,338
Other debtors	3,533	-	-	-	-	-	3,533
Total credit risk	412,825	23,413	12,516	1,721	1,779	(532)	451,722

(b) Liquidity Risk

Liquidity risk is the risk that the Syndicate will not have sufficient financial resources to meet liabilities as they fall due. In respect of catastrophic events there is also a liquidity risk associated with the timing differences between gross cash out-flows and expected reinsurance recoveries and an associated risk of gross funding of US Situs losses.

A liquidity risk policy exists that sets out the assessment and determination of what constitutes liquidity risk. Compliance with the policy is monitored and exposures and breaches are reported to the Risk and Capital Committee.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

4. RISK AND CAPITAL MANAGEMENT (continued)

(b) Liquidity Risk (continued)

The table below summarises the maturity profile of the Syndicate's financial assets and liabilities.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

4. RISK AND CAPITAL MANAGEMENT (continued)

(c) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise of currency and interest risk.

For assets backing outstanding claims provisions, market risk is managed by matching the duration and profile of the assets to the technical provisions they are backing, referred to as Asset-Liability Matching. This helps manage market risk to the extent that changes in the values of assets are matched by a corresponding movement in the values of the technical provisions.

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Syndicate's functional currency is Sterling and its exposure to foreign exchange risk arises primarily with respect to transactions in United States dollars, Euros and Canadian dollars. The Syndicate seeks to mitigate the risk by matching the estimated foreign currency denominated liabilities with assets denominated in the same currency. The amount in "Other" in the current year predominantly relates to the funding requirements maintained to cover the liabilities in respect of the South African riots.

The table below summarises the exposure of the financial assets and liabilities to foreign currency exchange risk at the reporting date, as follows:

2022	GBP £000	USD £000	EUR £000	CAD £000	Other £000	Total £000
Total assets	338,393	1,745,571	135,509	75,814	53,832	2,349,119
Total liabilities	(413,126)	(1,468,437)	(103,854)	(61,731)	-	(2,047,148)
Net assets	(74,733)	277,134	31,655	14,083	53,832	301,971
2021	GBP £000	USD £000	EUR £000	CAD £000	Other £000	Total £000
Total assets	306,667	1,321,929	109,176	58,473	71,855	1,868,100
Total liabilities	(340,022)	(1,101,297)	(90,470)	(52,661)	-	(1,584,449)
Net assets	(33,355)	220,632	18,706	5,812	71,855	283,651

The table below shows the impact on the Syndicate's net assets of a 5% appreciation or depreciation in each currency relative to Sterling, as at the balance sheet date.

2022	GBP £000	USD £000	EUR £000	CAD £000	Other £000	Total £000
5 percent appreciation	-	13,857	1,583	704	2,692	18,836
5 percent depreciation	-	(13,857)	(1,583)	(704)	(2,692)	(18,836)
2021	GBP £000	USD £000	EUR £000	CAD £000	Other £000	Total £000
5 percent appreciation	-	11,032	935	291	3,593	15,851
5 percent depreciation	-	(11,032)	(935)	(291)	(3,593)	(15,851)

4. RISK AND CAPITAL MANAGEMENT (continued)

(c) Market Risk (continued)

Interest rate risk

Interest rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The sensitivity analysis below shows the impact of a 50 basis point movement in interest rates with all other variables held constant, showing the impact on net assets.

	2022 £000	2021 £000
Impact of 50 basis point increase on net assets	(9,500)	(9,200)
Impact of 50 basis point decrease on net assets	9,500	9,200

The impact of the reasonably possible changes in the interest rate on Members' balances would be the same, since the Syndicate recognises all changes in recognised assets and liabilities in profit or loss.

Capital Management

Capital framework at Lloyd's

The Society of Lloyd's (Lloyd's) is a regulated undertaking and subject to the supervision of the Prudential Regulatory Authority (PRA) under the Financial Services and Markets Act 2000 and in accordance with the Solvency II Directive.

Within this supervisory framework, Lloyd's applies capital requirements at member level and centrally to ensure that Lloyd's complies with Solvency II, and beyond that to meet its own financial strength, licence and ratings objectives.

Although, as described below, the Lloyd's capital setting processes use a capital requirement set at the syndicate level as a starting point, the requirement to meet Solvency II and Lloyd's capital requirements apply at the overall and member level, not at syndicate level. Accordingly, the capital requirement in respect of the Syndicate is not disclosed in these financial statements.

Lloyd's capital setting process

In order to meet Lloyd's requirements, each syndicate is required to calculate its Solvency Capital Requirement (SCR) for the prospective underwriting year. This amount must be sufficient to cover a 1 in 200 year loss, reflecting uncertainty in the ultimate run-off of underwriting liabilities (SCR 'to ultimate'). The syndicate must also calculate its SCR at the same confidence level but reflecting uncertainty over a one-year time horizon (one year SCR) for Lloyd's to use in meeting Solvency II requirements. The SCRs of each syndicate are subject to review by Lloyd's and approval by the Lloyd's Capital and Planning Group.

A syndicate may be comprised of one or more underwriting members of Lloyd's. Each member is liable for its own share of underwriting liabilities on the syndicate(s) on which it participates but not other members' shares. Accordingly, the capital requirement that Lloyd's sets for each member operates on a similar basis. Each member's SCR shall thus be determined by the sum of the member's share of the syndicate SCR 'to ultimate'. Where a member participates on more than one syndicate, a credit for diversification is provided to reflect the spread of risk, but consistent with determining an SCR which reflects the capital requirement to cover a 1 in 200 year loss 'to ultimate' for that member. Over and above this, Lloyd's applies a capital uplift to the member's capital requirement, known as the Economic Capital Assessment (ECA). The purpose of this uplift, which is a Lloyd's not a Solvency II requirement, is to meet Lloyd's financial strength, licence and ratings objectives. The capital uplift applied for 2022 was 35% (2021: 35%) of the member's SCR 'to ultimate'.

Each member may provide capital to meet its ECA either by assets held in trust by Lloyd's specifically for that member (Funds at Lloyd's ('FAL')), held within and managed within a syndicate (Funds in Syndicate ('FIS')) or as the member's share of the members' balances on each syndicate on which it participates.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

4. RISK AND CAPITAL MANAGEMENT (continued)

Provision of capital by members

With the exception of the FIS balance held, all the assets less liabilities of the Syndicate, as represented in the members' balances reported on the balance sheet on page 20, represent resources available to meet members' and Lloyd's capital requirements.

Using its detailed measurement of risk exposures, the Syndicate allocates capital to support the business according to the risk appetite and expected returns. The Managing Agent regularly reviews and enhances its risk management processes and their enabling governance structures to ensure that the managing agent can demonstrate continuous compliance with regulatory and Lloyd's requirements. The Syndicate has complied with all capital requirements during the year ended 31 December 2022.

5. ANALYSIS OF UNDERWRITING RESULT

An analysis of the underwriting result before investment return is set out below:

2022	Gross Written Premiums £000	Gross Premiums Earned £000	Gross Claims Incurred £000	Gross Operating Expenses £000	Re- insurance Balance £000	Total £000
Direct insurance						
Marine, Energy, Aviation and Transport	385,934	368,617	(232,228)	(115,750)	(3,877)	16,762

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

5. ANALYSIS OF UNDERWRITING RESULT (continued)

All premiums are written through Lloyd's platform.

Brokerage and commission on direct business written was £187.3m (2021: £170.9m).

The geographical analysis of premiums by destination is as follows:

	2022 £000	2021 £000
United Kingdom	1,041,145	896,699
Total	1,041,145	896,699

6. NET OPERATING EXPENSES

	2022 £000	2021 £000
Acquisition costs	266,309	246,669
Change in deferred acquisition costs	(7,144)	(27,364)
Administrative expenses	41,187	31,803
Gross operating expenses	300,352	251,108
Reinsurance commissions	(13,167)	(13,983)
Net Operating Expenses	287,185	237,125

Administrative expenses include:

	2022 £000	2021 £000
Fees payable to the Syndicate auditor for the audit of the Syndicate Annual Accounts	103	98
Fees payable to the Syndicate auditor and its associates for other services		
Other services pursuant to Regulations and Lloyd's Byelaws	50	50
Audit related assurance services	27	27
Actuarial valuation services	98	90
Total	278	265

Members' standard personal expenses are included within administrative expenses.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

7. STAFF NUMBERS AND COSTS

All staff are employed by MRSG UK Services Limited. The following amounts were recharged to the Syndicate in respect of salary costs:

	2022	2021
	£000	£000
Wages and salaries	17,847	15,757
Social security costs	2,327	1,975
Other pension costs	1,308	1,089
	21,482	18,821
Total	21,482	18,821

The average number of employees employed by the service company but recharged to the Syndicate during the year was as follows:

	2022	2021
Underwriting	68	60
Claims	17	13
Other	90	84
	175	157
Total	175	157

8. KEY MANAGEMENT PERSONNEL COMPENSATION

Five (2021: Five) directors of Munich Re Syndicate Limited received the following aggregate remuneration charged to the Syndicate and included within net operating expenses:

	2022	2021
	£000	£000
Directors' emoluments	2,271	2,370
Contributions to pension scheme	9	20
	2,280	2,390
Total	2,280	2,390

No other compensation was payable to key management personnel. For the purposes of this disclosure, key management personnel are taken to be the directors of the Managing Agent.

The highest paid director received the following remuneration charged as a Syndicate expense and included within the directors' emoluments above:

	2022	2021
	£000	£000
Emoluments	904	743
Contributions to pension scheme	3	3
	907	746
Total	907	746

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

8. KEY MANAGEMENT PERSONNEL COMPENSATION (continued)

The Chief Underwriting Officer received the following remuneration charged as a Syndicate expense and included within the directors' emoluments above:

	2022 £000	2021 £000
Emoluments	608	668
Contributions to pension scheme	-	-
	608	668
Total	608	668

9. INVESTMENT RETURN

	2022 £000	2021 £000
Investment income		
Income from investments	11,550	7,136
Gains on the realisation of investments	719	83
Unrealised gains on investments	413	198
	12,682	7,417
Investment expenses and charges		
Investment management expenses	(701)	(556)
Losses on the realisation of investments	(3,525)	(854)
Unrealised losses on investments	(31,726)	(9,445)
	(35,952)	(10,855)
Total investment return	(23,270)	(3,438)

The table below presents the average amounts of funds in the year per currency and analyses by major currency the average investment yields in the year.

	2022 £000	2021 £000
Average amount of syndicate funds available for investment during the year		
Sterling	171,363	121,954
Euro	52,926	27,837
US dollar	545,392	368,593
Canadian dollar	64,585	40,560
	834,266	558,944
Average funds available for investment, in Sterling	834,266	558,944
Total investment return	(23,270)	(3,438)

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

9. INVESTMENT RETURN (continued)

	2022	2021
	%	%
Annual investment yield		
Sterling	(3.2)	(0.4)
Euro	(5.0)	(1.5)
US dollar	(2.1)	(0.5)
Canadian dollar	(0.6)	(0.2)
	<hr/>	<hr/>
Total annual investment return, in %	(2.8)	(0.6)
	<hr/>	<hr/>

10. NON-TECHNICAL ACCOUNT INCOME/CHARGES

The non-technical account loss of £(13.3)m (2021: loss of £(3.1)m) reflects investment losses on the Funds in Syndicate deposited by MRCL into the Syndicate's Premium Trust Fund.

11. OTHER FINANCIAL INVESTMENTS

	Fair value		Cost	
	2022	2021	2022	2021
	£000	£000	£000	£000
Shares and other variable yield securities	7,461	7,461	8,777	8,777
Debt securities and other fixed income securities	1,034,449	793,718	1,036,523	806,152
Deposits with credit institutions	72,298	82,823	72,298	82,823
	<hr/>	<hr/>	<hr/>	<hr/>
Total	1,114,208	884,002	1,117,598	897,752
	<hr/>	<hr/>	<hr/>	<hr/>

All debt securities and other fixed income securities are highly liquid and marketable. These comprise 92.8% (2021: 89.8%) of the total market value of investments.

Included within the fair value of financial investments is accrued income of £5.0m (2021: £3.4m).

Deposits with credit institutions comprises the "Other financial investments" portion of our overseas deposits, where the latter amounts to £72.8m (2021: £85.0m) in total, held at fair value (see note 15).

Valuation hierarchy

The Syndicate classifies its financial instruments held at fair value in its balance sheet using a fair value hierarchy, as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 – Inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Given the uncertainty regarding repayment of the Lloyd's loan, we have considered a discount for lack of marketability of between 10% and 20% and therefore have applied a 15% fair value adjustment (2021: 15%).

No further Level 3 disclosure is provided on the grounds of materiality.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

11. OTHER FINANCIAL INVESTMENTS (continued)

The table below analyses financial instruments held at fair value in the Syndicate's balance sheet at the reporting date by its level in the fair value hierarchy.

2022	Fair value hierarchy			
	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
Shares and other variable yield securities	-	-	7,461	7,461
Debt securities and other fixed income securities	-	1,034,449	-	1,034,449
Loans and deposits with credit institutions	13,375	58,923	-	72,298
Total	13,375	1,093,372	7,461	1,114,208

2021	Fair value hierarchy			
	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
Shares and other variable yield securities	-	-	7,461	7,461
Debt securities and other fixed income securities	-	793,718	-	793,718
Loans and deposits with credit institutions	11,302	71,521	-	82,823
Total	11,302	865,239	7,461	884,002

12. DEBTORS ARISING OUT OF DIRECT INSURANCE OPERATIONS

	2022 £000	2021 £000
Due from intermediaries		
Due within one year	342,352	274,325
Due after one year	164	526
Total	342,516	274,851

13. OTHER DEBTORS

	2022 £000	2021 £000
Due from IDCs	3,799	2,638
Due from others	1,018	895
Total	4,817	3,533

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

14. DEFERRED ACQUISITION COSTS

	2022	2021
	£000	£000
Balance at 1 January	132,388	103,105
Movement in deferred acquisition costs	10,707	27,364
Effect of movements in exchange rates	7,783	1,919
	150,878	132,388
Balance at 31 December	150,878	132,388

15. OVERSEAS DEPOSITS

Overseas deposits are lodged as a condition of conducting underwriting business in certain countries and for local regulatory requirements. Of the total balance below, £0.5m (2021: £2.1m) is recognised as cash and £72.3m (2021: £82.8m) is recognised as "Other Financial Investments".

	2022	2021
	£000	£000
Illinois Deposit	5,534	2,110
Joint Asset Trust Funds	1,664	1,667
Additional Securities Limited	13,724	6,834
South African Trust Deed	23,167	49,651
Australian Trust Fund	16,988	15,465
Other Funds	11,690	9,276
	72,767	85,003
Overseas Deposits	72,767	85,003

The Illinois Deposit is determined by reference to the Syndicate's premium income and estimated exposure to outstanding liabilities arising from business written in the State of Illinois, USA and is required to enable the Syndicate to underwrite business arising in that State.

The Joint Asset Trust Funds are determined by reference to the Syndicate's US dollar reinsurance and surplus lines premium income and are required to enable the Syndicate to write certain reinsurance and surplus lines business in the USA.

The Additional Securities Limited deposits are lodged as a condition of conducting underwriting business in Switzerland and other countries.

The South African Trust Deed is required to enable the Syndicate to underwrite business arising in South Africa. The Syndicate's contribution to the fund is calculated by reference to the amount of outstanding liabilities under South African policies.

The Australian Trust Fund is required to enable the Syndicate to underwrite business arising in Australia. The Syndicate's contribution to the fund is calculated by reference to the premium income and estimated exposure to outstanding liabilities arising from business written in Australia.

Other Funds predominantly consists of the Syndicate's Canadian Margin Fund.

Cash at bank and in hand	113,294	68,119
Other Financial Investments	13,314	10,457
	126,608	78,576
Total	126,608	78,576

Cash at bank and in hand includes £21.6m (2021: £15.1m) of Singapore funds. The Singapore funds relate to the Singapore and Offshore Insurance Funds ('SIF' and 'OIF' respectively) assets held in trust in accordance with the Lloyd's Asia (Singapore policies) Instruments 2002 and Lloyd's Asia (Offshore policies) Instrument 2002. Under the terms of the standard mandate agreement all powers, authorities and discretions of the Managing Agent's trustees and of the Managing Agent are delegated to individuals who are officers of Munich Re Syndicate Singapore Pte Limited, an IDC of the Syndicate.

Only Other Financial Investments comprising of call deposits with maturities of three months or less from the acquisition date that are used by the Syndicate in the management of its short-term commitments are included in cash and cash equivalents.

24. RELATED PARTIES

Münchener Rückversicherungs-Gesellschaft Aktiengesellschaft in München ('Munich Re')

Munich Re Syndicate Limited is wholly owned by Munich Re Specialty Group Ltd (MRSGL), which is wholly owned by Munich Re. The Syndicate placed a total of £16.2m (2021: £15.8m) outwards reinsurance premium with its ultimate parent undertaking under 43 different contracts for the 2022 year of account (2021: 19). These contracts provided the Syndicate with cover within the normal course of business and the transactions were carried out at arm's length.

During 2022, the Syndicate wrote reinsurance contracts with other Munich Re group companies including American Alternative Insurance Corporation, Great Lakes Insurance SE, HSB Engineering Insurance Ltd and ERGO, the primary insurer of Munich Re. The total inwards premium on these policies was £33.7m (2021: £35.3m).

Munich Re Capital Limited ('MRCL')

MRCL is the corporate member of the Syndicate. MRCL's immediate parent company is MRSGL.

T E Artmann, R J Attwood and D J R Hoare are directors of MRCL.

Munich Re Syndicate Limited ('MRSL')

During the year, the Syndicate has paid fees to MRSL, the Managing Agent of the Syndicate, amounting to £1.7m (2021: £1.5m). MRSL's immediate parent company is MRSGL. The outstanding net balances at year end were £54.0m due from the Syndicate (2021: £25.3m due from the Syndicate).

The managing agent has paid £39.6m (2021: £34.1m) in shared service recharges for the ordinary day to day running costs related to the Syndicate.

Munich Ergo Asset Management GmbH ('MEAG')

MEAG is Munich Re's asset management company. The Syndicate paid a total of £0.7m (2021: £0.6m) for asset management and accounting services in 2022.

24. RELATED PARTIES (continued)

Munich RE Specialty Insurance (UK) Limited ('MRSI')

MRSI is a non-profit making IDC, wholly owned by MRSGL and predominantly produces UK provincial Marine business for the Syndicate under a binding authority. From 2022, it includes the business from Groves, John & Westrup Limited. Business produced by MRSI amounts to approximately 10.7% (2021: 9.9%) of the estimated earned premium (gross of reinsurance) of the Syndicate in 2022.

On 31 December 2011, the Syndicate provided a subordinated loan of £0.2m to MRSI, and, in January 2022, the subordinated loan to GJW of £0.7m was transferred over to MRSI. This was necessary to ensure the continued regulatory compliance of MRSI. This loan bears interest at Secured Overnight Financing Rate ('SOFR') plus 1%. This loan is repayable not less than two years from the date on which the loan is made; or not less than two years from the date on which the borrower gave notice in writing to the Lender and the FCA. The outstanding net balances at year end were £4.4m due from the Syndicate (2021: £8.5m due from the Syndicate).

T E Artmann, R J Attwood, T Coskun and D J R Hoare are directors of MRSI.

Groves, John & Westrup Limited ('GJW')

Up to December 2021, GJW was a non-profit making IDC, wholly owned by MRSGL and produced UK Yacht and Private Client related business. From 2022, its principal activity is to supply office space to MRSI, with no further outstanding balances due to the Syndicate (2021: £1.5m due from the Syndicate).

R J Attwood and T Coskun were directors of GJW.

Munich Re Syndicate Singapore Pte Limited ('MRSS')

MRSS is a non-profit making IDC owned by MRSGL and produces Marine business from S.E. Asia exclusively for the Syndicate under a binding authority. Business produced by MRSS amounts to approximately 3.6% (2021: 2.7%) of the estimated earned premium (gross of reinsurance) of the Syndicate in 2022. The outstanding net balances at year end were £11.1m the Syndicate (2021: £11.0m due to the Syndicate).

T E Artmann and R J Attwood are directors of MRSS.

Roanoke International Brokers (MENA) Limited ('RIBML')

RIBML is an insurance broker in the Middle East which is wholly owned by MRSGL. Business produced by RIBML amounts to approximately 0.4% (2021: 0.8%) of the estimated earned premium (gross of reinsurance) of the Syndicate in 2022, where the gross brokerage income generated by RIBML in the year ending to 31 December 2022 was £0.3m (2021: £nil). The outstanding net balances at year end were £0.6m due to the Syndicate (2021: £0.5m due from the Syndicate).

There were no directors in common between the Syndicate and RIBML for 2022.

Munich Re Syndicate Labuan Limited ('MRSLAB')

MRSLAB is a non-profit making IDC owned by MRSGL and produces Marine business from Malaysia exclusively for the Syndicate under a binding authority. Business produced by MRSLAB amounts to approximately 0.4% (2021: 0.5%) of the estimated earned premium (gross of reinsurance) of the Syndicate in 2022. The outstanding net balances at year end were £0.9m due to the Syndicate (2021: £0.1m due from the Syndicate).

There were no directors in common between the Syndicate and MRSLAB for 2022.

24. RELATED PARTIES (continued)

Munich Re Specialty Group N.A Inc. ('Roanoke US')

Munich Re Specialty Group N.A. Inc. is a directly wholly owned company by MRSGL and produces Marine business from the USA for the Syndicate under a binding authority. Business produced by Roanoke US amounts to approximately 12.6% (2021: 10.0%) of the estimated earned premium (gross of reinsurance) of the Syndicate in 2022. The outstanding net balances at year end were £37.6m due to the Syndicate (2021: £13.1m due to the Syndicate).

T E Artmann, R J Attwood and D J R Hoare are directors of Munich Re Specialty Group N.A.

Roanoke International Brokers Limited ('RIBL')

RIBL is an insurance broker wholly owned by MRSGL. RIBL conducts business both with the Syndicate and third parties. The gross brokerage income generated by RIBL in the year ending to 31 December 2022 was £6.0m (2021: £3.8m). A high percentage of this brokerage is from the placement of business through the above mentioned IDCs. There were no outstanding balances with the Syndicate at the year-end.

There were no directors in common between the Syndicate and RIBL for 2022.

Munich Re Risk Solutions Ireland Limited ('MRRSI')

MRRSI is a wholly owned subsidiary of MRSGL which was set up for the Syndicate to enable it to have continued access to EEA business via the Lloyd's Brussels platform following Brexit. As of 31 December 2022, MRRSI has written £2.0m of reinsurance contracts (2021: £1.4m). There were no outstanding balances with the Syndicate at the year-end.

T Coskun and R J Attwood are directors of MRRSI.

MRSGL UK Services Limited ('MRSGLUKS')

MRSGLUKS is a wholly owned subsidiary of MRSGL, which is the sole employer within the subgroup. There were no outstanding balances with the Syndicate at the year-end.

T E Artmann, T Coskun and R J Attwood are directors of MRSGLUKS.

25. FUNDS AT LLOYD'S

Every member is required to hold capital at Lloyd's, which is held in trust and known as Funds at Lloyd's ('FAL'). These assets are in the form of letters of credit from Munich Re. These funds are intended primarily to cover circumstances where Syndicate assets prove insufficient to meet participating members' underwriting liabilities.

The level of FAL that Lloyd's requires a member to maintain is determined by Lloyd's, based on the PRA's requirements and resource criteria. FAL is determined by a number of factors including the nature and amount of risk in respect of business that has been underwritten by the member and the assessment of the reserving risk in respect of business that has been underwritten. Since FAL is not under the management of the Managing Agent, no amount has been shown in these financial statements by way of such capital resources.

However, the Managing Agent is able to make a call on the members' FAL to meet liquidity requirements or to settle losses.

26. FUNDS IN SYNDICATE

MRCL holds investments in the Syndicate used to support the Syndicate's capital requirements, along with the FAL. This gives the Syndicate the ability to manage these funds under the same investment mandate as the other funds of the Syndicate that are held within the premium trust funds.

NOTES TO THE ACCOUNTS AT 31 DECEMBER 2022

27. FOREIGN EXCHANGE RATES

The following foreign currency exchange rates have been used for principal foreign currency transactions:

	2022	2022	2021	2021
	Year-end rate	Average rate	Year-end rate	Average rate
Euro	1.13	1.17	1.19	1.16
US dollar	1.20	1.24	1.35	1.38
Canadian dollar	1.63	1.61	1.71	1.72

28. POST BALANCE SHEET EVENTS

A cash distribution of £68.2m to members will be proposed in relation to the 2020 year of account (2021: £(1.5)m cash call in relation to the 2019 year of account).
