

Four teal-colored bars of varying lengths and orientations, arranged in a pattern that suggests movement or a stylized arrow pointing right.

1. BVES INVESTOR SUMMIT

Energy storage systems – a pick & shovel investment for a secure energy supply

23 November 2022, Palais Populaire,
Unter den Linden 5, 10117 Berlin

12:00 **Registration and Lunch**

13:00 **Welcome and Introduction**

Urban Windelen, Executive Director BVES

Moderators:

Vanessa Hensel, NEOFAKTUR,

Dr. Sebastian Scholz, Product Lead Smart Energy / Energy Storage, MUNICH RE,
Board Member BVES

Session 1: What's the value of storage? Why invest in Energy Transition?

The first session will focus on the role of storage technologies in the energy transition and decarbonization now and in the future.

What's the Value of Storage?

Dr. Andreas Hauer, CEO, ZAE BAYERN / BVES Vice President

Investing into Renewables and Energy Storage – what are the next steps?

Manuela Heise, Head of Department New Energies, DKB

A global approach to investing in change.

Philipp Offenber, Senior Manager, BREAKTHROUGH ENERGY EUROPE

Discussion and Coffee break

Four orange-colored bars of varying lengths and orientations, arranged in a pattern that suggests movement or a stylized arrow pointing right.

Session 2: Raising the money – key challenges and today's regulatory requirements

This session will take a closer look at the current financing needs and investment opportunities in the various market areas. It will also highlight key regulatory requirements the market is facing.

Residential Storage Market: A global trend leads to a global business

Bianca Swanston, CFO, SONNEN

C&I Storage Market: A multi-technologies and multi-applications approach.

Dr. Christian Müller, CEO, EIT-INNOENERGY

Utility Storage Market: Big batteries, big money, big returns?

Konstantin von Falkenhausen, Managing Partner, B CAPITAL PARTNERS

Discussion and Coffee break

Session 3: Selecting investment targets – key challenges for tomorrow

Session 3 will address new investment approaches and touch upon business models that go beyond individual storage technologies such as batteries or hydrogen.

Topic to be confirmed

Robert Pottmann, Head of Alternative Assets Strategy & Development, MEAG, Amprion Supervisory Board

C&I Storage Market: Energy Transition calls for a new approach to investment

Henrik Telle, Finance Expert and Consultant, Founder

Utility Storage Market: how to invest in hydrogen – the legal perspective

Dr. Christian Bauer, Partner, WATSON FARLEY & WILLIAMS

Discussion and Coffee break

Session 4: What are the needs to invest in Energy Storage Systems?

Session 4 will focus on the topic of how to make the energy storage industry more attractive for investment.

Panelists:

Joseph Engelhart, Allianz Investment Management SE

Philipp Offenber, Senior manager, BREAKTHROUGH ENERGY EUROPE

Thomas Engelmann, Head of Energy Transition, KGAL

Markus Rosenthal, BVES (and Moderation)

+ Discussion with BVES Board Members

18:30

Meet and Greet - Bringing together the financial sector and storage industry representatives

Welcome: BVES

Keynote Politics: Katharina Beck, MP, German Green Party, Finance Committee

Keynote Market platform: Simone Bandle-Enslin, Yannik Stäbler, LMS/VOLTA-X

**Speed and scale are key to achieving the decarbonization goals.
What are we waiting for?**

Panelists:

Thomas Speidel, CEO, ADS-TEC ENERGY/BVES President

Katharina Beck MP (Green Party) TBC

Konrad Stockmeier MP (FDP)

Manuela Heise, Head of Department New Energies, DKB

Dr. Britta Buchholz, Vice President Active Distribution Grids, HITACHI ENERGY
