

ISO Registration

HSB, a Munich Re company, is a technology-driven company built on a foundation of specialty insurance, engineering and technology, all working together to drive innovation in a modern world.

The International Organization for Standards (ISO) has developed quality and environmental management standards that are applicable to any business. HSB Registration Services, an independent and internationally accredited registrar, can certify companies to ISO 9001 and ISO 14001.

ISO 9001 is a quality management standard set forth by ISO. The current version of this evolving standard is ISO 9001:2015. ISO 14001 is an environmental management system standard. Successful ISO 14000 implementation indicates that you are in control of your processes and their effects on the environment.

Client industries

HSB Registration Services offers certification in many industries, including the following:

- Mechanical equipment, materials and related services
- Metal fabricators
- Primary metal industries
- Power generation
- Construction
- Electronics and other electrical equipment and components
- Management and public relations
- Electronic equipment
- Nondestructive testing
- Automotive components
- Chemical and allied products
- Engineering services
- Plastics and rubber products
- Miscellaneous manufacturing

Benefits of certification

- Encourages companies to streamline and document processes, which can result in increased productivity and lower operating costs.
- Improves communications with a company and with suppliers and customers.
- Provides an opportunity to enter previously untapped markets.
- Provides measurable results and continuous improvement.

Why HSB registration services

International recognition

HSB Registration Services is fully accredited by the International Accreditation Service (IAS).

Responsive

HSB Registration Services is responsive to customer needs. Audit findings are available immediately and reports are issued within two weeks.

Technical expertise

HSB Registration Services has access to technical staff with experience in all of the client industries listed.

In-house auditors

HSB Registration Services uses RAB-QSA and IRCA-certified auditors who are familiar with local language and customs.

Client focus

HSB Registration Services is focused on serving the customer in its area of expertise, with an audit team that has industry-specific knowledge of operations and processes.
