

E-Trade: HSB Machinery and Technology Combined

Equipment breakdown insurance and inspection

**A comprehensive solution for UK businesses
operating machinery and equipment**

Comprehensive equipment breakdown solutions

HSB Machinery and Technology Combined provides:

Equipment breakdown insurance

Cover for damage and breakdown to fixed manufacturing, processing and services equipment, and building services equipment.

Inspection services

Impartial plant/equipment examinations to help customers maintain workplace equipment safety, optimise the efficiency of plant and equipment, and comply with applicable health and safety legislation.

We live and work in a world where technology is constantly evolving; creating new forms of machinery and equipment, applications for them, and requirements for businesses to conform to applicable workplace equipment health and safety legislation. Whilst technology brings many benefits, ever more reliance on electronic components and software is increasing the risk to businesses of equipment failure, breakdown, and non-regulatory compliance.

How HSB can help

HSB Machinery and Technology Combined responds to changing equipment risks, exposures and applicable health and safety regulatory requirements by providing an equipment breakdown insurance policy and inspection service all in one; a comprehensive solution for UK businesses operating machinery and equipment.

Trading made simple

Available via **Acturis** and **HSB Fast Track**, our product has been developed to be traded entirely online; making the full quote and bind process as quick and easy as possible.

What is included?

Equipment breakdown and damage

Provides damage and breakdown insurance cover, including:

- Cover for the failure, breaking, distortion or burning-out of any part of the machinery or equipment during its normal operation
- Includes the failure of any electronic or computer equipment that controls the machinery or equipment, even if there is no physical damage
- Operator error included as standard
- Cover for undamaged non-compatible parts included as standard
- Cover for damage whilst temporarily removed, including during transit, for the purpose of repair, service or modification
- Reinstatement of machinery or equipment as new

Inspection service

Provision of impartial engineering inspection services, via our network of competent, multi-skilled Engineer Surveyors, to assist with statutory inspections and thorough examinations across a vast range of plant and equipment for the following classes:

- Boiler/pressure
- Electrical/mechanical
- Lifting
- Power presses and associated machinery
- Local exhaust ventilation
- Fixed wiring (electrical)

Focused on simple, accessible e-trade solutions

Who is it targeted at?

HSB Machinery and Technology Combined is predominantly aimed at the following:

- Manufacturers and suppliers
- Food industry
- Commercial property owners: offices/hotels/retail complexes/high-rise residential blocks
- Pharmaceutical industry
- Dairy farmers
- Specialist engineering industries

How can I access HSB Machinery and Technology Combined?

Our product is available via **Acturis** and **HSB Fast Track**, making it quick and easy to quote and bind cover, process mid-term adjustments and obtain renewal terms; with no waiting for contract/policy documents.

HSB Machinery and Technology Combined in action

The following are examples of the types of scenarios that could be supported by our HSB Machinery and Technology Combined product.

Insurance

High-precision manufacturing firm	Incident: Operator error caused spindle damage within a CNC machine.	Claim cost: £38,000
Church	Incident: A heating boiler broke down due to failure of circuits within the controls.	Claim cost: £7,674

Inspection

Manufacturer	After inheriting an overdue equipment schedule, we took full ownership. Starting with the statutory items, which were mainly passenger lifts, we mobilised a HSB Engineer Surveyor task force to focus on bringing everything 100% up-to-date; removing the compliance stress from the customer.
