- April renewals dominated by single clients rather than by larger portfolios
- Top-line increases significantly due to several new business opportunities, resulting from our preferential client access and leading risk know-how
- This includes one very large new transaction
- Price change (-1.5%) less pronounced than last year (-2.6%), confirming indications of a deceleration in rate declines

▶ Portfolio profitability remains clearly above cost of capital

¹ Munich Re is adjusting its financial reporting format following an amendment to the regulations of the Frankfurt stock exchange. The half-year financial reports and annual reports will remain unchanged. However, instead of issuing quarterly reports for the first and third quarters, we will release reports in the new form of quarterly statements from 2016 onwards. We will continue to present and explain the figures for each quarter in telephone conferences for analysts and journalists, and in press releases.
