

# Third-Party Inspection

HSB, a Munich Re company, is a technology-driven company built on a foundation of specialty insurance, engineering and technology, all working together to drive innovation in a modern world.

## HSB's multi-accredited status and global presence enable us to manage Third-Party Inspection requirements for your pressure equipment.

HSB has a worldwide staff of qualified and experienced National Board-commissioned inspectors to provide Third-Party Inspection Services on behalf of manufacturers, end users, owners and contractors. They work to help ensure that inspections are done in accordance with standards, regulations and specifications. We perform Third-Party Inspection Services for the Petrochemical, Oil/Gas, Utilities, Pharmaceutical, LNG, Manufacturers, Mining, Pulp and Paper, and Food Processing Industries.

### Third-Party Inspection

HSB provides Third-Party Inspection Services of pressure equipment built to a recognized code, standard, regulation or customer-defined specification. We provide independent, third-party inspections globally to our clients' requirements to verify quality and compliance. Third-Party Inspection Services offer the following, which can be customized to clients' requirements:

- Monitoring of fabrication, in whole or in part, from start to finish
- Witnessing of pressure tests
- Supplier and vendor surveillance
- Expediting
- Witnessing of material testing, evaluation and controls
- Design verification (including certification, where required)

## Value of HSB

- We simultaneously verify specification compliance while providing inspection requirements for formal certification to international standards
- We optimize inspection resources by leveraging our familiarity with manufacturers' quality systems and procedures
- We provide effective global coordination of inspection activities and a uniform inspection approach

HSB maintains a worldwide staff of qualified and experienced National Board-commissioned inspectors, with specialists qualified to local requirements, where those exist. Our inspection staff is committed to providing consistent service quality wherever you require support. HSB's global reach allows us to mobilize qualified staff and reduce your overall inspection costs.

## HSB provides:

- **Single-Source Inspection Service:** HSB can perform inspections to all of your pressure-equipment requirements.
- **Global Coverage:** HSB's engineers and inspectors around the world allow us to cost-effectively manage complex, multi-site inspections involving a variety of standards.
- **Local Presence:** We have local representation in Europe, Asia and the Americas so you can strategize globally and act locally.
- **Responsiveness:** HSB responds quickly to urgent situations that require accelerated project schedules and high levels of responsiveness.
- **Global Inspection Staff:** HSB has more than 450 pressure equipment inspectors and supervisors. We have National Board nuclear and non-nuclear commissioned inspectors in Asia, Europe, the Middle East, and North and South America.
- **Client Focus:** HSB ensures that the delivered services meet clients' needs and requirements. Services can include everything from incoming material approval to installation and testing.
- **Experience:** HSB brings together our knowledge of the ASME Codes and Standards, quality program development and surveillance activity, and combines it with our unique understanding of many international codes, which helps you save time and money.
- **Support:** HSB is approved to perform pressure equipment inspections to almost all international codes and standards and often assists clients with design reviews and product inspections for international use.
