

Energy

**Inventive solutions for an
evolving energy market**

HSB is a leading specialty insurer and reinsurer of energy-related industries providing all-risk property, specialty insurance solutions, inspection, and engineering services. We set the standard worldwide for excellence in coverage design, technical underwriting, inspection service, engineering risk management, and claims administration.

Specialized underwriting expertise

HSB understands the nuances of a changing energy landscape and remains ready to provide the specialized insurance and service the energy industry requires. Our extensive industry experience and expertise provide us with a broad business appetite and the competency to underwrite virtually any type of energy business or renewable technology.

HSB energy products and services are designed to respond to the needs of asset owners, project developers, facility operators, financiers, and investors.

Suite of coverages

HSB developed a suite of insurance products and services to meet the needs of investors and operators of energy plants and facilities. We write operational property and builders' risk for a range of power generation sectors including solar, biofuels, biomass, hydroelectric, geothermal, wind, energy storage, and fuel cells. While our primary focus is on renewables, we also support conventional and distributed power generation.

HSB Energy offers a suite of coverages including:

- "All-risk" Property, Equipment Breakdown, including business income
- Builders' Risk coverage, including delay in startup
- Capacity: Up to \$250 million
- Quota share participation for larger renewable or conventional power generation risks
- Direct coverage offered on a non-admitted basis via HSB Specialty Insurance Company
- Flexibility in coverage wording
- Best-in-class jurisdictional inspection services for boilers and pressure vessels

The HSB difference

Reasons to select HSB as your energy-business partner:

- **Technical knowledge** — With deep insight into the energy industry, from renewables to conventional power generation, HSB has the experience and expertise to underwrite virtually any energy-related industry.
- **Broad, renewable appetite** — Broad underwriting appetite for renewable accounts including solar, biomass, biofuels, hydroelectric, wind, geothermal, fuel cell, and energy storage.
- **Extensive engineering expertise** — HSB engineers evaluate complex equipment risks and make loss-control recommendations or provide specialized services such as infrared thermography, transformer dissolved gas analysis, fire protection engineering, jurisdictional inspections for boilers, and more.
- **Unsurpassed financial strength** — A++ (Superior) A.M. Best Company financial strength rating.
- **Responsive claims support** — Dedicated renewable energy claim specialists.
