

International Group Trainee Programme EXPLORE ^(m/f/d)

EXPLORE is our international Group Trainee Programme for future management positions in the insurance business. Over a period of 24 months, this cross-divisional trainee programme will allow you to explore three different companies under the umbrella of Munich Re (Group). You will gain valuable insights into the insurance business as a whole as well as into the specific areas of reinsurance, primary insurance and asset management. EXPLORE is tailored to give future leaders a firm professional grounding and provide our Group with top talents.

We are looking for ambitious top talent with a proven passion for the financial industry to join our Group Trainee Programme, EXPLORE, on 1 October 2020. Please apply online: www.munichre.com/explore

We offer

- A unique experience in an international context – a head start for future leaders
- Intensive training on and off the job to develop your professional and personal skills
- A comprehensive overview of today's finance industry
- An introduction to our core business processes, including strategy development, sales, product development, underwriting, claims, risk management and asset management
- Two three-month assignments with our international companies
- The opportunity to establish a broad international business network
- Mentoring and coaching by top executives

You offer

- A master's or doctoral degree and outstanding academic achievements in economics, law, computer science or mathematics
- Genuine interest in a leadership career within the financial sector
- International experience
- An enquiring, open-minded personality
- Strong analytical and problem-solving abilities
- Excellent command of English and one other language with high proficiency

Munich Re is one of the world's leading reinsurance companies with more than 11,000 employees at over 50 locations around the globe. We are working on topics today that will concern the whole of society tomorrow, whether that be climate change, major construction projects, gene technology or space travel. We find solutions to these challenges through a network of highly qualified professionals who anticipate risks, work on tailor-made solutions and expertly advise our clients. If you want to help shape the future as part of one of our teams, we look forward to hearing from you. Please click on the link to apply online.
