Priced for uncertainty – looking for answers

Bank of America Merrill Lynch – 21st Annual Financials CEO Conference

London, 29 September 2016

Nikolaus von Bomhard

Global environment becoming increasingly challenging while changing risks provide opportunities

GOAL
Dampening volatility

GOAL
Providing solutions

Proactive risk management builds up resilience in an unpredictable and unstable environment – Exploring attractive mid to long-term growth opportunities to overcome soft reinsurance markets

Macroeconomic/political risks – Proactively limiting the economic impact

Structural risks – Coping with negative government bond yields¹

Impact
Ongoing decline of reinvestment yield putting pressure on running yield

Munich Re strategy
Adhere to strict ALM

Event-driven risks – Increasing capital-market volatility, e.g. after Brexit vote

Strong FX moves
Equity markets
Financial sector
Precious metals

Impact
Volatile investment and FX result

Munich Re strategy
Diversification

Munich Re investment portfolio

Well diversified – Group-wide trigger and limit system

Hedging of macroeconomic risks – affecting both, assets and liabilities

Reasonable credit exposure – with high quality of counterparties

Munich Re well-positioned to prevail through challenging times

¹ Source: Bloomberg, UBS. July 2016.

Well-balanced investment portfolio provides resilience against volatile capital markets

Market-risk contribution
(SCR as at 31.12.2015, undiversified) %

Real estate

Equity¹

Currency

General interest rate

Equity –
Low gearing² %

Credit –
High quality³ %

General interest rate – Tight AL-matching (DV01) €m

Keeping moderate investment risk profile – No hunt for yields to compensate for low interest rates

1 Equity risk also includes alternative investments, such as investments in infrastructure. 2 Net of hedges. 3 Fixed-income portfolio as at 30.6.2016.

Strong balance sheet mitigates the impact of low interest rates and competitive p-c reinsurance markets

Low interest rates

Attrition of running yield – Munich Re (Group)

Ongoing disposal gains – Munich Re (Group)

P-C re-insurance

Increasing normalised combined ratio

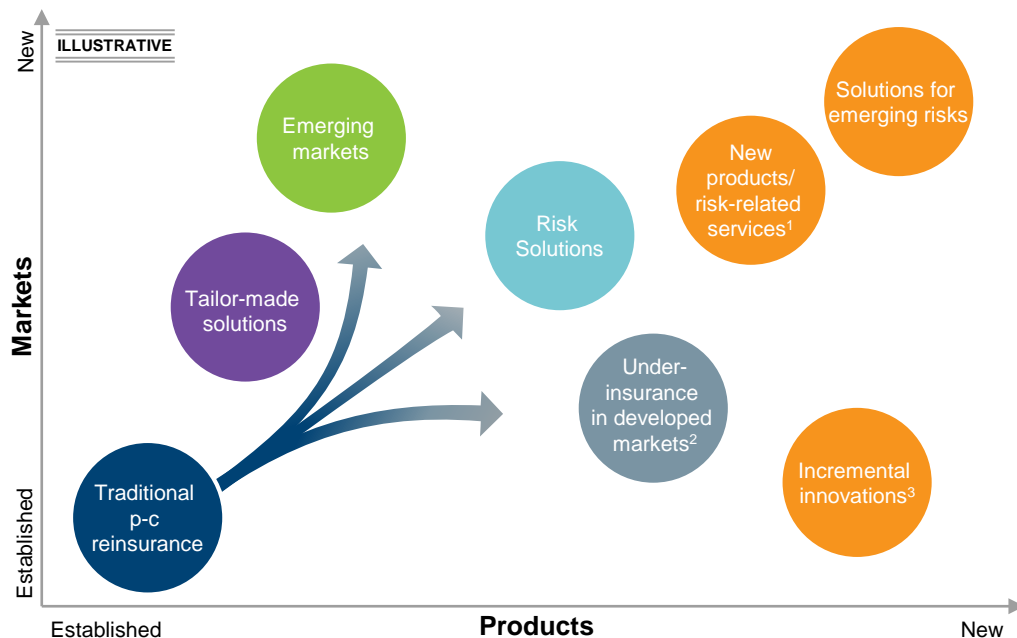

Ongoing reserve releases

Strong balance sheet continues to translate into sustainable earnings

1 Impact on IFRS net result from 2012 until H1 2016.

Munich Re is well positioned to manage the current market environment and drive industry innovation

Traditional p-c reinsurance
Munich Re in excellent position to successfully manage the soft cycle

TOTAL⁴
€13bn

Risk Solutions
Continuous growth in expertise-driven specialty and niche business

TOTAL⁴
€5bn

Innovation
Active development of business opportunities, tapping new profit pools

TOTAL^{4,5}
~€500m

Efficiently running the traditional book while continuously exploring new products/markets

1 e.g. Cyber insurance, performance guarantees for renewable energies. 2 e.g. Liability risks of oil platforms. 3 e.g. Satellite life-time insurance.
4 Gross premium written as at 31.12.2015. 5 Munich Re (Group); indirect effects on traditional business not included.

Traditional p-c reinsurance – Portfolio profitability protected by disciplined underwriting and consistent cycle management

Profitable core business

- Preferential client access**
 - ~50% private placements¹
 - ~2/3 direct client business
- Leading risk know-how**
 - ~30% tailor-made solutions¹
 - Comprehensive service offering
- Superior diversification**
 - As regards perils, forms of cover, regions, short/long-tail
- Stringent cycle management**
 - Strong u/w discipline and conservatism in reserving
 - Deliberate portfolio shifts to less commoditised business

TOTAL²
€13bn

Renewals – Nominal price changes %

Traditional portfolio relatively resilient to pressure on rates – Diversification provides flexibility in managing the portfolio

¹ Related to premium volume in 2016. . ² Gross premium written as at 31.12.2015.

Risk Solutions – Highly valuable business segment with strong top and bottom-line contribution

Gross earned premiums¹

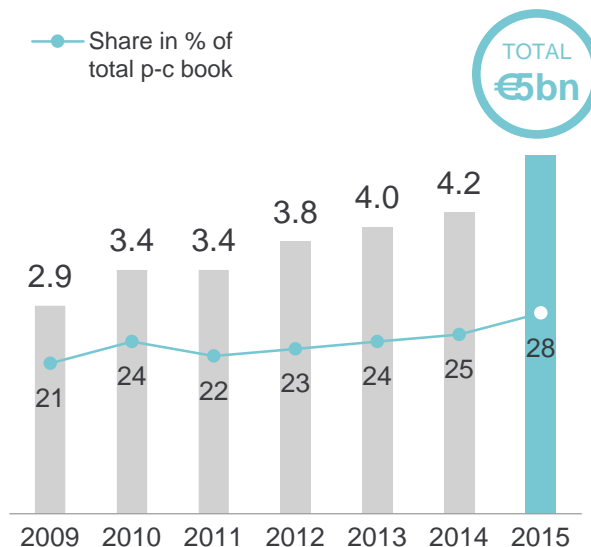

€bn

Combined ratio¹

%

Underwriting result¹

€bn

Business largely detached from reinsurance cycle

¹ Management view, not comparable with IFRS reporting.

Innovation – Major innovation trends impact the industry, creating opportunities and challenges for (re)insurers

Major innovation trends – Impact on industry

Digitalisation and new technologies

- + New exposures and risks (e.g. cyber)
- + Bundled products
- + Corporate partnering
- + Cost reduction

Improved data availability and sophisticated analysis methods

- + Improved risk selection/pricing
- + Competitive advantage for data owners

Changing customer expectations and behaviour¹

- + Efficient customer acquisition and improved retention

- Reduced risks/loss frequency

- Danger of anti-selection

- Risk of disruption/disintermediation

- New capabilities required to compete with current set-up

Munich Re – Active development of business opportunities

- Innovation-related business already sizeable

- Risk carrier for established and new (digital) companies
- Provider of integrated risk services
- Automation support for cedants
- Tailored solutions and white-label products

TOTAL²
~€500m

Munich Re fosters innovation throughout the global organisation –
Tapping new profit pools by expanding market boundaries with innovative products and services

Innovation – Cyber (re)insurance market

Strong and long-term growth to be expected

GWP global cyber insurance market¹ US\$ bn

Driving forces/trends

Offer convincing solutions in all customer segments

Investments impacting net profit by ~€1bn until 2020

Annual cost savings from 2020 ~€540m/~€280m (gross/net)

ERGO: Increasing IFRS net profit €m

ERGO's profitability will cover its cost of capital from 2020 and create incremental added value thereafter

Strong capital position according to all metrics facilitates financial flexibility, including high shareholder distribution

Attractive shareholder participation¹

€bn

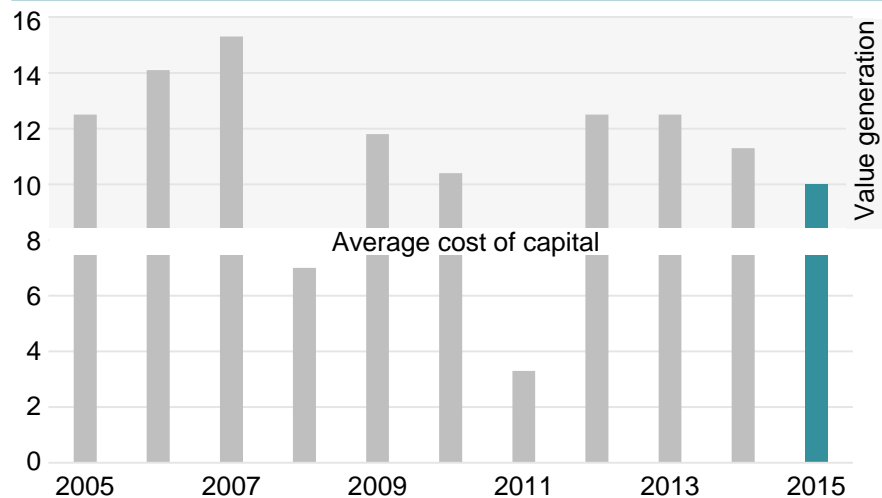

Cash yield² 11.2% 7.8% 5.4% 6.0% 9.6% 7.7%

Munich Re continues to provide high cash returns to shareholders

¹ Cash-flow view. ² Total payout (dividend and buy-back) divided by average market capitalisation.

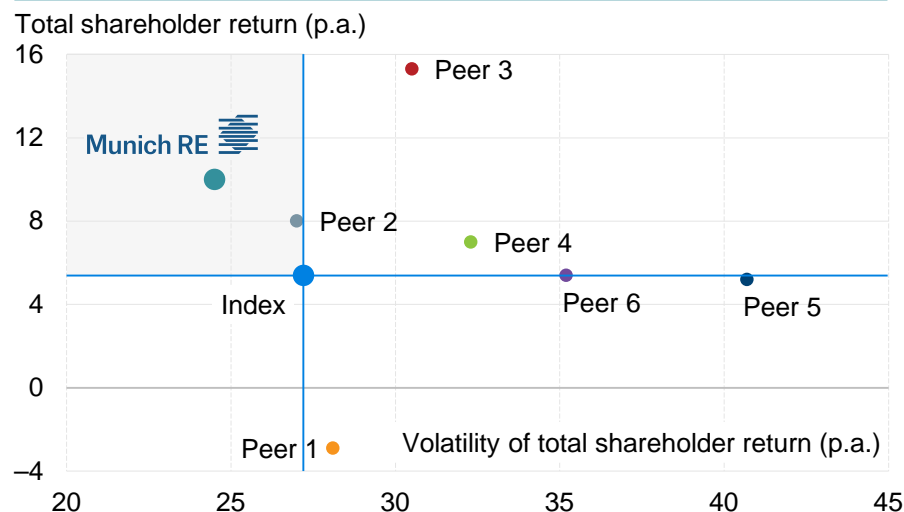

Convincing track record in value generation

Return on equity

11-year average ROE: ~11.0% –
Clearly exceeds average cost of capital: ~8%

Risk/return profile¹

Annualised TSR: ~10.0% –
Outperforming major peers and insurance index

Balanced business portfolio paves the way for sustainable profitability

1 Annualised total shareholder return defined as price performance plus dividend yield over the period from 1.1.2005 until 31.8.2016; based on Datastream total return indices in local currency; volatility calculation with 250 trading days per year. Peers: Allianz, Axa, Generali, Hannover Re, Swiss Re, ZIG, Stoxx 600 Insurance ("index").

Financial calendar

2016

9 November Quarterly statement as at 30 September 2016¹

2017

7 February Preliminary key figures 2016 and renewals

15 March Balance sheet press conference for 2016 financial statements
Analysts' conference in Munich with videocast

26 April Annual General Meeting 2017, ICM – International Congress Centre Munich

9 May Quarterly statement as at 31 March 2017¹

9 August Half-year financial report as at 30 June 2017

9 November Quarterly statement as at 30 September 2017¹

¹ Munich Re is adjusting its financial reporting format following an amendment to the regulations of the Frankfurt stock exchange. The half-year financial reports and annual reports will remain unchanged. However, instead of issuing quarterly reports for the first and third quarters, we will release reports in the new form of quarterly statements from 2016 onwards. We will continue to present and explain the figures for each quarter in telephone conferences for analysts and journalists, and in press releases.
