- We offer a comprehensive benefits program to our employees.

We invite you to learn more about us at our website: [www.munichre.com/hsbbii](http://www.munichre.com/hsbbii)

### Primary Objectives:

HSB BI&I is currently seeking a professional with property risk control experience who can contribute to the evaluation of existing risks as well as supporting development and analysis of new prospects. The Property Risk Control Consultant should have excellent knowledge of risk control engineering and be capable of clearly communicating these evaluations to audiences of varying levels of technical knowledge. This role is ideal for an enthusiastic Risk Control Consultant who is willing to learn on the job and take on new challenges towards his/her professional development.

### Job Responsibilities:

- Evaluation of large/ high hazard property risks, particularly in the area of power generation.
- Perform complex property loss control evaluation surveys at assigned onsite locations, and do desk reviews based on provided data.
- Conduct on-site evaluations required to gather detailed information, interview site personnel and evaluate fire protection / prevention programs.
- Thorough inspection of the site construction, occupancy hazards and related protection features, natural hazards, property protection, building construction, and external exposures.
- Complete report documentation and share/explain this information with relevant personnel connected to the account.
- Careful attention to survey deadlines and time and expense budgets is a requirement of this position.

### Qualifications:

- Post-secondary engineering, diploma or equivalent education.
- P.Eng (C.E.T) designation or in progress.
- Minimum 3 years' experience in fire protection / commercial property loss control.

- Knowledge of Building & Fire Codes, Fire Protection Codes and Standards (NBC, NFC, NFPA and other relevant codes).
- Knowledge of mechanical engineering with specific experience in operation & maintenance would be a plus.
- Strong communication skills both verbal and written in English.
- A good command of French language will be a definite asset.
- Must be able to work independently as well as with the team members.
- Able to travel within North America and overseas.
- Previous exposure to the insurance industry is not required, but would be considered an asset.

Creating and maintaining a work environment that promotes respect, diversity and dignity is important to us. We strive for equality in our workplace, to eliminate employment barriers, and promote a workplace based on principles which align with our company values and promote positive employee practices.

Candidates requiring accommodation during any stage of our selection process should advise us of this; we will strive to work with individuals to find a suitable means to meet their needs.

If you are interested in applying for this position, please quote Job Reference **PRCC0120-BW** and send a covering letter along with a resume to: [hr@biico.com](mailto:hr@biico.com).

We thank all candidates for their interest; however only those selected for interview will be contacted.
