

Risk Solutions

Renewable Energy All-Risk Solutions

The Boiler Inspection and Insurance Company of Canada (BI&I)

HSB BI&I

Munich RE 

Trusted Solutions for Complex Renewable Energy Risks

Since 1875, BI&I has delivered on its reputation as Canada’s trusted engineering insurer. Together with HSB Group and Munich Re, we set the global standard for excellence in coverage design, technical underwriting, inspection services, engineering risk management and claims service. These have helped earn us A.M. Best Company’s highest financial rating, A++ (Superior).

Our industry experience provides a broad business appetite and the expertise to underwrite virtually any type of renewable technology.

BI&I’s Technical Risk Underwriting Solutions Team (TRusT) has the expertise and the appetite to meet the specific needs of owners and operators of renewable energy plants, including:

- Hydroelectric
- Wind turbines
- Tidal power
- Geothermal
- Biofuels and biomass
- Energy storage and fuel cells
- Solar and photovoltaic installations

Coverages include:

- All Risk Property, including Equipment Breakdown
- Business Interruption
- All CAT perils

Primary or subscription

In-House Experts and Services

Account Executive

A seasoned technical insurance professional with expertise in tailored wordings, supporting the needs of all stakeholders involved in the risk: the insured, broker and partner insurer.

Account Engineer

With deep technical knowledge and expertise, the Account Engineer oversees risk assessment, loss control and assists with claims investigations.

Account Inspector

Conducts jurisdictional and loss prevention inspections to detect potential issues, and provides recommendations. BI&I’s Account Inspector is geographically positioned to be close to the insured, to deliver timely and efficient service.

Claims Specialist

Brings specialized knowledge to help manage and assist in the effective, timely and fair settlement of complex claims.
