

Your engineering panel insurer

We're proud to be working with Marsh to provide innovative engineering and technology insurance and inspection solutions. Covering a broad range of technologies and industry sectors, our specialist underwriters, engineers and claims teams collectively use their extensive experience and technical expertise to provide expert guidance, training and assistance.

Partnership approach and people expertise

We want to get to know you and your business. Which is why, with HSB, you benefit from:

- Access to a dedicated team working across all Marsh offices.
- A partnership approach which ensures that we understand your strategy and goals.
- All your business serviced by the one team - whether that's new business quotes, MTAs or renewals - same team, every time.
- Access to people who can make underwriting decisions.

Trusted insurer

We know that you want to deal with an insurer you trust. At HSB, you benefit from:

- A leading specialist who is the only sole provider of engineering and technology insurance, and inspection services in the UK and Ireland.
- Part of the HSB Group, a global specialist in engineering, insurance and technology, with over 150 years of experience and heritage.
- An insurer with a financial strength rating of A++ (Superior) by A.M. Best Company.

Understanding and managing risks

As a niche insurance and inspection services provider, you get the benefit of access to:

- A specialist team of engineering and construction underwriters.
- A specialist claims team with expert knowledge and experience in engineering and construction.
- A loss control engineering team who can support you with complex risks.
- Engineering consultancy services that can help your customers: reduce risks and costs, deliver compliance, increase time and efficiency savings, and improve H&S management.

Delivering health and safety compliance

With HSB by your side, you can ensure that your customers achieve full compliance with their inspection service requirements. We provide:

- Reassurance that you are working with a UKAS accredited provider and SAFed member.
- Reassurance that we take safety seriously - ROSPA gold award winner for 7 consecutive years.
- Access to highly qualified engineers who won't compromise on safety, and sophisticated systems to help your customers manage their inspection programme.
- Multi-discipline engineers. Which means that your customers get one engineer on site, which minimises disruption.
- Access to market-leading online inspection report management system (HSB Connect), enabling your inspection customers to have a full view of their inspection programmes.
