Information Security & Compliance Officer

Location

Athens

Your Profile

You will be responsible for the development and delivery of a comprehensive information security and compliance program, including the development of information security and compliance policies, standards, and procedures. You will further develop an ongoing risk assessment management program and implement an Incident Reporting and Response System to address information security incidents. You will further act as the company's compliance and consulting officer on information security and compliance issues, making sure that legislative and statutory requirements are always met.

Required Skills

- University level degree in Computer Science, Information Technology, or relevant field of study.
- Master's degree or professional certifications in the field of Information Security would be an asset.
- 7+ years of working experience in information security, information technology, data protection or another related field.
- Experience in developing and administering an information security program.
- Experience in developing and administering a business continuity program would be an asset.
- Excellent project management and organizational skills.
- Excellent oral and written communication skills.

- Fluency in English language.

We Offer

- Competitive salary and benefits, including but not limited to: life/health insurance, annual company bonus, hybrid work model
- Continuous hard and soft skills development through global platforms & local academy
- Diverse and inclusive culture
- International mobility within the Munich Re Group
- Enjoyable and stable working environment
- Leading-edge technology

About Us

Munich Re HealthTech S.A., a division of Munich Re, is a leading global specialist in digital solutions for the health insurance industry.

Munich Re HealthTech has been operating since 1995 and its solutions currently support 24 organizations in 19 countries in Europe, the Middle East, Africa and Latin America. Its software solutions decrease the complexity of creating and managing complicated health insurance products, enhance the customer experience throughout the claims process and provide the tools for successful portfolio management.
