Business Analyst

Location

Athens

Profile

The Business Analyst is the vital link between information technology capacity and the business objectives. We are looking for an accomplished business analyst with in-depth experience of completing detailed business process analysis and requirement gathering to enable the delivery of complex software development projects.

Required Skills

- University level degree (or higher education institute) in Computer Science, Information Technology or relevant field of study.
- Expected to have 5+ years' experience in Business / IT Systems Analysis
- Proven record in gathering and documenting business requirements and translating them into IT business solutions.
- Knowledge and experience in the Insurance industry will be considered an asset
- Certification in Business Analysis will also be highly appreciated
- Ability to function in an agile development environment
- Strong written and verbal communication skills including technical writing skills

We Offer

- Competitive compensation
- Continuous training

- Enjoyable and stable working environment
- Leading-edge technology
