

Turn complexity into vision

MR HealthTech Ltd, a Munich Re division, is one of the world's leading technology vendors to the Health Insurance industry. It provides state-of-the-art software platforms designed to support its customers end-to-end reliably and offer them solutions that help them address their business objectives while maximizing profitability potential. It currently operates in 19 countries, in 4 continents and supports 24 organizations.

Due to our increasing demand for designing and implementing best-of-breed software solutions, at our Athens Office, we are seeking specialists for the following position:

DevOps Support Engineer

Main Responsibilities:

- Design, write and deliver code to improve the monitoring, availability, scalability of services
 - Deploy complex applications and resolve relative issues
 - Continuous Integration / Continuous Deployment (CI/CD) automation
 - Build and document automation scripts to prevent problem recurrence
 - Administration and Configuration of Application Servers
- Analyze and resolve incidents reported by customers

Required Skills:

- University level degree (or higher education institute) in Computer Science, Information Technology or relevant field of study.
- Knowledge of UNIX/Linux Environments
- Experience in shell scripting, WLST, Python
- Familiarity with continuous integration/delivery tools (e.g. Jenkins)
- Familiarity with automation tools (e.g. Ansible)
- Familiarity with installation and configuration of Application Servers
- Fluency in English language
- Availability for On-Call support
- Willing to learn new technologies
- Quick learner
- Analytical thinking with problem-solving abilities
