

Turn complexity into vision

MR HealthTech Ltd, a Munich Re division, is one of the world's leading technology vendors to the Health Insurance industry. It provides state-of-the-art software platforms designed to support its customers end-to-end reliably and offer them solutions that help them address their business objectives while maximizing profitability potential. It currently operates in 19 countries, in 4 continents and supports 24 organizations.

Due to our increasing demand for designing and implementing best-of-breed software solutions, at our Athens Office, we are seeking specialists for the following position:

Front End Developer

PROFILE

A Front End Developer will design and build web applications to meet business process and application requirements. He / She will build out web applications for MRHT products that accommodate a rich User Experience.

Required Skills:

- University level degree (or higher education institute) in Computer Science, Information Technology or relevant field of study.
- At least 4 years of working experience in Front End development.
- Strong experience with modern JavaScript (ES6+).
- Strong experience with HTML5 & CSS3, including CSS preprocessors such as LESS, SASS or Stylus.
- Experience in consuming dynamic web services and REST APIs.
- Proven experience on web application development with JavaScript frameworks such as Angular, React, Knockout,
- Vue, Ember, Backbone.
- Experience with npm and Git.
- Good oral and written communication skills.
- Very good command of the English language.

DESIRED SKILLS:

- Knowledge of TypeScript.
- Knowledge of Modern Web APIs including Web Components, WebSockets and Fetch.
- Knowledge of web application unit/integration testing and of testing frameworks such as Mocha, Jest, Jasmine will be considered a plus.
