

Turn technology into change

MR HealthTech Ltd, a Munich Re division, is one of the world's leading technology vendors to the Health Insurance industry. It provides state-of-the-art software platforms designed to support its customers end-to-end reliably and offer them solutions that help them address their business objectives while maximizing profitability potential. It currently operates in 19 countries, in 4 continents and supports 24 organizations.

Due to our increasing demand for designing and implementing best-of-breed software solutions, at our Athens Office, we are seeking specialists for the following position:

Junior Software Engineer

PROFILE

We are looking for junior software engineers that will participate in the development team for building applications with end-to-end support for modeling, developing, debugging, and deploying e-business applications. The job holders will have the opportunity to start their careers as Software Engineers.

KEY RESPONSIBILITIES

- Work closely with dedicated teams of architects, business analysts, software engineers, testers, and other employees to execute project plans.
- Analyze specifications and requirements for designing and implementing end-to-end SOA solutions with functional and technical components.
- Become members of an experienced development team that supports the development and testing of new and existing applications using Oracle Fusion Middleware.

REQUIRED SKILLS

- University level degree (or higher education institute) in Computer Science, Information Technology, or relevant field of study
- Familiarity with Java programming will be considered an asset
- Understanding of IS concepts and practices
- Good communication and documentation skills
- Fluency in English language

DESIRED SKILS

Familiarity with any of the following will be considered an asset:

- Oracle SOA Suite
- Oracle Database

WE OFFER

- Competitive compensation
- Continuous training
- Enjoyable and stable working environment
- Leading-edge technology
