PLSQL Developer

Location

Athens

Profile

We are looking for a Software Engineer to be involved in the entire lifecycle of the development (design, creation, testing and documentation) of information systems from supplied specifications in accordance with agreed standards using Oracle technology.

Requirements

- University level degree (or higher education institute) in Computer Science, Information Technology or relevant field of study.
- 2-5 years of experience in the development of Information Systems using various technologies.
- Very strong background/experience with SQL programming (Preferably Oracle SQL and PL/SQL).
- Knowledge of Oracle PL/SQL packages, procedures, design fundamentals, data modeling concepts.
- Experience with SQL tuning of application queries developed for large databases.
- Experience with report development software packages, such as Oracle OBIEE or Oracle BI Publisher.
- Good oral and written communication skills.
- Very good command of English language.

We Offer

- Competitive compensation
- Continuous training
- Enjoyable and stable working environment
- Leading-edge technology
