

Turn complexity into vision

MR HealthTech Ltd, a Munich Re division, is one of the world's leading technology vendors to the Health Insurance industry. It provides state-of-the-art software platforms designed to support its customers end-to-end reliably and offer them solutions that help them address their business objectives while maximizing profitability potential. It currently operates in 19 countries, in 4 continents and supports 24 organizations.

Due to our increasing demand for designing and implementing best-of-breed software solutions, at our Athens Office, we are seeking specialists for the following position:

Technical Architect

PROFILE

Candidate will be responsible for the defining the overall structure of the MRHT's product architecture. The candidate is essential to understand all the aspects of a system from a technical point of view while also maintaining an understanding of the business aspects.

Key Responsibilities:

- Identifying and articulating business needs
- Breaking down large scale projects into architecturally meaningful chunks
- Documenting and maintaining the product's architecture
- Explaining to development team what is needed and perform design reviews
- Advising clients on current and future needs

Required Skills:

- 3+ years of experience as technical architect and 5 years of experience on a senior technical role
- Strong problem-solving skills
- Ability to gather and assimilate information
- Up to date technical knowledge (Cloud computing, Containers, Microservices, are some indicative areas)
- Ability to adapt and prioritize
- Ability to think ahead and anticipate problems, issues and solutions
- Experience in information systems for the Health Insurance business is a plus.
- Certification in an Architecture Framework is also considered a plus.
