

# Turn technology into change

MR HealthTech Ltd, a Munich Re division, is one of the world's leading technology vendors to the Health Insurance industry. It provides state-of-the-art software platforms designed to support its customers end-to-end reliably and offer them solutions that help them address their business objectives while maximizing profitability potential. It currently operates in 19 countries, in 4 continents and supports 24 organizations.

Due to our increasing demand for designing and implementing best-of-breed software solutions, at our Athens Office, we are seeking specialists for the following position:

## **Testing Team Leader (Custom Development Team)**

The Testing Team Leader (Custom Development team) will take the overall leading and control of resources required to provide efficient and cost-effective quality to a large scale software product for health insurance business, which is continuously responsive to changing business and user requirements.

### **Main Responsibilities/Challenges:**

- Responsible for providing solutions, following through reported problems, monitoring performance, and managing a medium sized testing team.
- Define the scope of testing within the context of each release / delivery
- Lead product test cases design that will demonstrate conformance to functional and non-functional requirements.
- Lead test cases automation and manual development
- Maintain product's test suites
- Applying the appropriate test measurements and metrics in the product and the Testing Team

### **REQUIRED SKILLS**

- University level degree (or higher education institute) in Computer Science, Information Technology or relevant field of study.
- 5-7 years work experience in testing services.
- Excellent knowledge of testing and development methodologies and their interaction.
- Usage of testing tools such as ALM, JIRA, etc.
- Design detailed test cases through effective understanding of requirements, use cases and design specifications
- Proven experience in team leading (at least 3 years) with positive track records.
- Very good command of English language.

## DESIRED SKILLS

- Test Automation (Selenium/Jmeter or similar tools/frameworks)
- Previous experience in Oracle applications (ADF / Jet)
- Experience in Software Product Testing
- Experience in web technologies
- Ability to perform Mentoring

## WE OFFER

- Competitive compensation
- Continuous training
- Enjoyable and stable working environment
- Leading-edge technology
