Unlock the insights hidden in your underwriting data

The **ALLFINANZ** underwriting rules engine captures vast volumes of data. Imagine if you could unlock all the value that contains? Well now you can.

Advance your digital new business process and performance with ALLFINANZ Insight, our analytical software solution that opens a limitless, expert view into your ALLFINANZ underwriting data. Deliver immediate out-of-the-box actionable insights while enabling business users explore the data in their own way. Unlock insights to **identify business risks and opportunities, increase straight through processing and drive profitability.**

See

See the big picture, see the detail

Understand both consumer and adviser behaviors. Fine-tune rules and process management. Monitor active pipeline data.

See risks, see opportunities

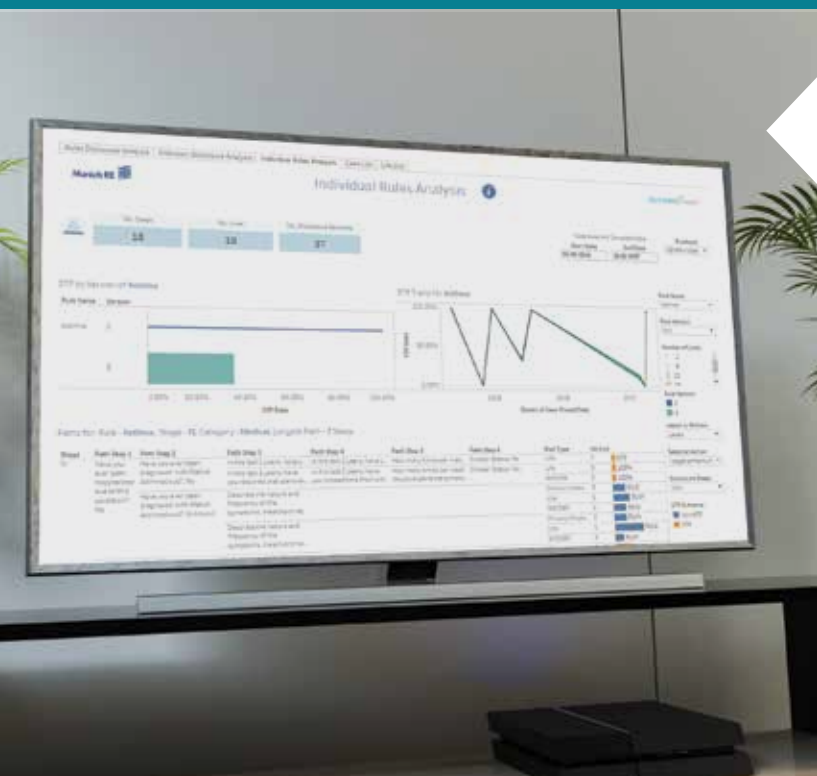

Quickly identify and respond to opportunities and bottlenecks.

See underperformance, see performance

For your overall underwriting operation, specific teams and individuals.

Creative, intuitive and approachable analytics for your entire team

ALLFINANZ Insight heralds a major shift in the capability and adaptability of underwriting data analytics. Business users are put in control, with timely, relevant, and actionable information, presented in intuitive, adaptable interfaces. The software transforms complex sets of new business and underwriting data into consumable and actionable intelligence for all key stakeholders in the new business and underwriting process.

Expert dashboards out-of-the-box

Interactive and dynamic dashboards, providing understandable analysis of your underwriting data, designed for business users. Dynamically filter and tweak results to see instant comparisons.

The cutting edge of data visualization

ALLFINANZ Insight reveals insights through a visually rich interface. The latest in data visualization techniques enables you to move beyond static charts, to create multi-faceted views of data, where you can explore every dimension.

Freedom to create bespoke dashboards

ALLFINANZ Insight enables non-technical users to adapt and customize the software without the support of dedicated IT developers. Quickly and easily create bespoke dashboards dedicated to your specific needs.

A deeper, wider view

ALLFINANZ Insight opens a wider and deeper view into your data. The software draws in more extensive data and its intelligent structuring and curation of this data enables immediate, multifaceted, deep insightful analysis. Access and analyze data to enable extensive pipeline views, dive into the fine grain detail and reveal extensive, actionable insights.
