Return on investment	2.9%	2.8%	3.2%
Reinsurance	2.3%	2.9%	3.1%
ERGO	3.2%	2.8%	3.3%

Highlights

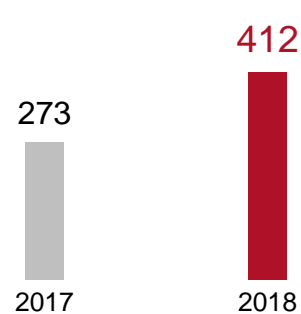

- Slightly increased running yield of 2.8% in 2018
- 3-month reinvestment yield dropped to ~2.1% in Q4 (Reinsurance: 2.4%, ERGO: 1.7%) due to temporarily increased allocation to short-term investments (e.g. sale of equities)
- Q4: Equity impairments compensated for by hedging derivatives and disposal gains
- 2018: Lower disposal gains compared with prior year, mainly due to lower realisation of valuation reserves for ZZR requirements at ERGO Life Germany

Major result drivers

- 2018: Net result significantly above guidance, strong underlying performance
 - L&H Germany: Positive non-recurring effects
 - P-C Germany: CR fully meets guidance – Tax effects only partially compensate for lower investment result
 - International: Very good CR – Strong result, especially in Poland and Spain
- Q4: Net result of €53m – net positive non-recurring effects in L&H Germany offset negative one-offs in International
 - L&H Germany: Tax-valuation adjustment of specific securities in the investment portfolio
 - P-C Germany: CR of 97.9% due to project expenses
 - International: Sound CR of 94.5% – Small net loss driven by one-offs

P-C Germany: CR¹ %

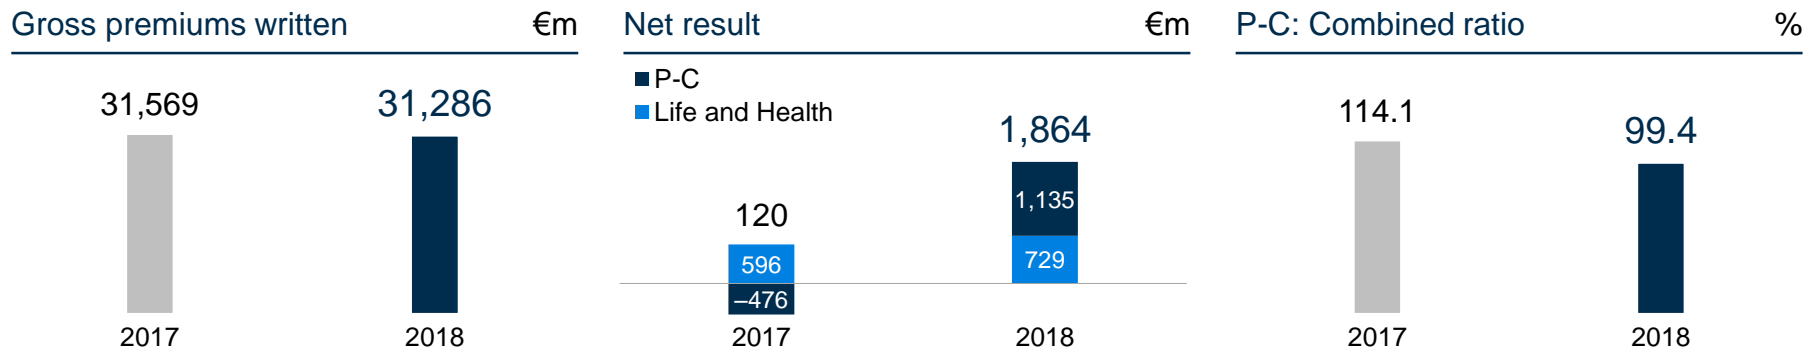

P-C International: CR¹ %

¹ Combined ratio.

Reinsurance – Key financials

Life and Health

- Technical result incl. fee income of €584m significantly exceeds guidance
- Better-than-expected overall claims experience, especially in the US
- Strong Q4 contribution of €165m driven by favourable claims experience and positive impact from new business; negative result in Australia largely offset by positive reserving effects in other markets

€m	9,445 ¹	-783	8,661	481	899	10,042

- Broadly diversified portfolio proves beneficial
- Some pressure on rates, especially in European property business ...
- ... offset by price increases in distinct lines of business and loss-affected programmes

¹ Deviation to outcome in January 2018 due to shifts in renewal dates, changes in included business and exchange rates. ² Price movement is risk-adjusted, i.e. includes claims inflation/loss trend and is adjusted for portfolio mix effects. Furthermore, price movement is calculated on a wing-to-wing basis (including cancelled and new business).
