A year of record-high insured natural catastrophe losses

Record-high insured nat cat losses of US$ 135bn

- Overall nat cat losses
- Insured nat cat losses

Munich Re delivers good underlying results

IFRS NET INCOME
- €0.4bn

Diversification proved beneficial

NORMALISED NET RESULT
- ~€2.2bn

Adjusted for severe nat cats in line with guidance\(^1\)

GERMAN GAAP (HGB) DISTRIBUTABLE EARNINGS
- €4.0bn

Safeguards capital repatriation

SOLVENCY II RATIO
- 244% Well above target capitalisation

\(^1\) Adjusted for 8%-pts. nat cat expectation.
Despite loss volatility, Munich Re proves a superior risk/return profile

RoE exceeds cost of capital

- 13-year average RoE: ~10%
- Average cost of capital: ~8%

Performance vs. major peers and insurance index

Value creation

Total shareholder return (p.a.)

Volatility of total shareholder return (p.a.)

1 Annualised total shareholder return defined as price performance plus dividend yield over the period from 1.1.2005 until 28.2.2018; based on Bloomberg data in local currency; volatility calculation with 250 trading days per year. Peers: Allianz, Axa, Generali, Hannover Re, Scor, Swiss Re, ZIG, Stoxx Europe 600 Insurance ("index").

Nat cats dominating 2017

**REINSURANCE NET INCOME**

€120m (€2,540m)

High nat cat claims, strong life and health result, tax income, FX losses

**ERGO NET INCOME**

€273m (€41m)

Above guidance – Strategy Programme well on track

**HGB RESULT**

€2.2bn (€3.4bn)

Release of equalisation provision mitigates high nat cat losses

**ECONOMIC EARNINGS**

€0.5bn (€2.3bn)

Nat-cat-driven economic losses in P-C Reinsurance offset by pleasing performance at ERGO and L/H Reinsurance

Prudent approach allows for reserve releases without weakening resilience against future volatility

Run-off change of ultimate basic and major losses\(^1\)

- Prudent reserving approach
  - For example Ogden rate fully anticipated – no adverse P&L impact in 2016/17 (reserves still based on –0.75%)
  - Cautious reaction to signs of deterioration in selected casualty portfolios
  - Cautious initial loss picks for new underwriting year
  - Positive run-off responds to benign loss emergence while preserving confidence level
  - Strong reserving position, resilient to a rise in inflation

\(^1\) Accident year split is partly based on approximations.  \(^2\) Basic losses, adjusted for commission effects.
Trough of running yield attrition reached – Diversification and real investments improve return

Reinsurance portfolio – Enhancement of running yield

Fixed-income:
- North America: 53% (54%)
- Emerging markets: 9% (9%)

Share of real investments:
- 18% (15%)

Ongoing diversification – Investments in countries with higher yields

Cautious increase in real estate, infrastructure, private and public equity

HGB result in 2017 meets capital repatriation of ~€2.3bn

- Underwriting result stabilised by releases of equalisation provision
- Investments: Lower dividend income from subsidiaries and lower disposal gains (intra-Group disposal gains in 2016)
- Other: Lower FX result partly offset by lower tax expenses
- Level of distributable earnings almost unchanged at €4.0bn

- Four new life and pension products for individual coverage
- Supplementary health: market leadership extended
- Enhanced profitability in Life, Health and Direct business supported by one-offs in Life
- Significantly lower derivatives result – positive effects from disposal gains

Life Germany – New setup for traditional book, revised product portfolio

Strategic rationale

- Decision to keep and manage traditional life back book – make most of value potential
- Focus on improved IT, opportunity for professional management of traditional life books for third parties
- Separation of traditional life business and stop of new business improves capital position significantly, opportunity to unlock earnings potential in inforce
- Building on expertise handling risks in a low interest rate environment (e.g. hedging programme against reinvestment risk in place since 2005)

Management traditional life book

- Separate organisational unit for traditional life business established – fully operational as of 1 January 2018
- Life portfolio management partnership between ERGO and IBM – migration of six million traditional life insurance contracts to a new, state-of-the-art IT platform started
- Mid-term opportunity for professional management of traditional life books for third parties

New business – revised product portfolio

- New business via ERGO Vorsorge
- New product suite focusing on biometric and capital efficient products
- Four new life and pension products successfully launched in 12/2017

- **PROPERTY-CASUALTY**
  - Strong new business growth – driven by motor business in Poland, acquisition of ATE in Greece

- **LIFE**
  - De-risking of traditional life business continued as planned – bancassurance reduced in Poland

- **HEALTH**
  - Successful further development due to growth in Spain and Belgium

**COMBINED RATIO**

- 95.3% (98.0%)
  - Significantly better than recent target of 97%
  - Overall improvement in claims and costs, mainly on account of good developments in Poland

**NET RESULT**

- €40m (–€1m)
  - Positive development in several markets, e.g. P-C business in Poland and India – partly offset by one-off effects, e.g. in Belgium

Fostering strong market positions, e.g. in Poland (P-C result of +€50m in 2017) and India (31% profitable growth in 2017)

Belgium: Run-down successfully initiated, de-risking of life business

First results of portfolio optimisation: Sale of entities in Switzerland, Slovakia and Luxembourg

Successful integration of international health business

New governance implemented and executed

We laid a solid base for our international business …

… with multiple initiatives on the way …

… to further improve profitability

Achieving medium-term targets

- Completing portfolio optimisation
