Partnership

Collaboration

We bring the financial stability of an established and trusted partner combined with a responsive, entrepreneurial approach and a focus on collaboration. We work with you to develop the products you need to be successful.

Franchise value

We align exclusively with agencies we consider to be the best in the business, whose underwriting skills, philosophies and expertise are in line with our own. Collaborating with select agency partners enables us to offer increased commission and a generous profit-sharing incentive, as we create and consistently improve our tools to meet your needs.

Products

We are building from the ground up—not simply duplicating what is already available in the marketplace, but addressing gaps and devising products and solutions based on your needs.

Our general liability offering includes contractors, habitational, mercantile, offices/LRO, and vacant exposures. With your voice, we will expand our lines of business and class offerings to meet the needs of your front-line underwriters and, ultimately, exceed their expectations.

Perspective

Combining thirty years of underwriting expertise with first-hand knowledge and experience in the wholesale industry, our unique perspective positions us as problem-solvers from the start. Together, we will consider all aspects of each risk, anticipate obstacles and expedite solutions. The result: long-term relationships that create mutual bottom-line value.
